- *Have you seen a mongoose? You have read in Lesson 9 that a mongoose can fight with and kill a snake. Look at the pictures and read the lines given along with them.*

The Banyan Tree

The fight of the cobra and the mongoose is a classic drama often seen in India, and the outcome is largely the same. The mongoose is not immune to the venomous bite, but is faster and quicker in motion than the snake. The cobra assumes a posture of defence and attempts to reach the animal by a sweeping strike, but the quick-moving mongoose jumps out of reach and comes at the snake from another

direction, before the snake can get into striking position again. This constant movement tires and discourages the snake, and the mongoose is finally able to leap in close and bury its teeth in the snake's neck, usually severing the joints of its vertebrae.
