Barack Obamas Rules For Revolution The Alinsky Model:

Barack Obama's Rules for Revolution David Horowitz, 2009 Barack Obama's Rules for Revolution The Alinsky Model provides an understanding of the roots of the current administration's effort to subject America to a wholesale transformation by looking at the work of one of the President's heroes radical Chicago community organizer Saul Alinsky The guru of Sixties radicals Alinsky urged his followers to be flexible and opportunistic and say anything to get power which they can then use to destroy the existing society and its economic system Alinsky died in 1972 but left behind an organization in Chicago dedicated to his malicious ideas This team hired Barack Obama in 1986 when he was 23 and taught him how to organize for radical transformation In this insightful new booklet Horowitz discusses Alinsky's work in the 60s and his advice to radicals to seize any weapon to advance their cause This became the philosophy of Alinskyite organizations such as ACORN and to Alinsky disciples Van Jones a self-described communist who served as President Obama's Green Czar until he was forced to resign when his extremist ideas became public Publisher **The Progressive Revolution** Ellis Washington, 2016-12-13 His tenth book The Progressive Revolution Volume V continues his legal historical and literary series based on Natural Law Natural Rights and the original political philosophy of the constitutional Framers and original jurisprudence of the U S Supreme Court Washington systematically chronicles both the historical significance and political deconstruction that the Progressive Revolution or the Progressive Age circa 1860 present has perpetrated against Western Civilization and American society even to this day These volumes are a collection of selected essays articles and Socratic dialogues from Washington's weekly columns published in RenewAmerica.com an essential news and opinion website of primarily conservative writers and ideas This opus Volume V 2014 15 Writings which rather than being arranged chronologically by date are organized topically according to their subject matter of 16 intellectual disciplines including Law Politics Foreign Policy Philosophy Aesthetics the Academy Religion Economics Science Medicine Math Engineering Culture Society History and Legal Scholarship *To Save America* Newt Gingrich, 2011-01-04 The message of this extraordinary election in November 2010 is clear enough the American citizenry has rejected the secular dogma socialist policies and machine driven politics that comprise the Obama agenda Now the question is whether President Obama and his Democratic Party will accept the will of the people and change the destructive course upon which they have set this country First and foremost Republicans must fight to dislodge the secular socialist machine whose methods and goals are described in this book This machine has driven America so deeply into debt and has so fundamentally changed the relationship between the American citizenry and our government that our children's future is now imperiled We cannot assume that after the 2010 election the machine will simply accept the will of the people After all the very purpose of a political machine is to thwart the will of the people [Handbook of Research on Political Activism in the Information Age](#) Solo, Ashu M. G., 2014-05-31 Technology and particularly the Internet has caused many changes in the realm of politics Mainstream media no longer has a

monopoly on political commentary as social media blogs and user generated video streaming sites have emerged as an outlet for citizens and political activists to openly voice their opinions organize political demonstrations and network online The Handbook of Research on Political Activism in the Information Age includes progressive research from more than 39 international experts at universities and research institutions across 15 different countries Each of the 25 scholarly chapter contributions focus on topics pertaining to the application of information technology engineering and mathematics to political activism Through its analysis of the methods for political activism in the information age the effectiveness of these methods as well as emerging analytical tools this book is designed for use by researchers activists political scientists engineers computer scientists journalists professors students and professionals working in the fields of politics e government media and communications and Internet marketing Economics 101 for Senators and Representatives Wallace Hoffman,2022-08-24 The mission of this book is to inform all American citizens how their senators and representatives vote in Washington Do your senators and your representative fulfill the responsibilities of government in the Constitution and vote in your favor If that is true they are your friends Or do your senators and your representatives violate the Constitution and vote against your best interest If that is true they are your enemies If you vote for and reelect your enemies they will be your enemies the next two or six years President Obama s legacy of deficit spending is characterized by average deficit spending of more than a trillion dollars annually During those eight years every American household went to bed each evening fifty dollars deeper in debt regardless of how hard they worked or whether they spent any money The national debt more than doubled during President Obama s eight years in office Each person s share of debt increased from 30 000 to 70 000 **Preparing the Way** Barry A. Baker,2021-09-02 From small and simple to grand and glorious sends an immediate message to many readers but to those who do not instantly envision examples before them Preparing the Way seeks to reveal elements of past present and future events woven together to set the stage for the great and dreadful day of the Lord This paradigm stage is set for all to discover One of the clearest principles of world history is that everything we see before us today had a small beginning somewhere somehow influenced by someone Remarkably enough these events have prepared the way for the restoration of the church that Jesus Himself organized in His day and age Through miraculous occurrences His church is again upon the earth to prepare the way for His second coming to preside over His kingdom for the one thousand year millennial rule and reign Jesus as King of kings and Lord of lords Thoroughly researched and supported this study invites you to embrace the knowledge that the same church that Jesus organized in the ancient Holy Land has been restored to the earth *Community Organizing* David S. Walls,2015-02-03 This incisive book provides a critical history and analysis of community organizing the tradition of bringing groups together to build power and forge grassroots leadership for social economic racial and environmental justice Begun by Saul Alinsky in the 1930s there are today nearly 200 institution based groups active in 40 U S states and the movement is spreading internationally David Walls charts how community organizing has transcended the

neighborhood to seek power and influence at the metropolitan state and national levels together with such allies as unions and human rights advocates Some organizing networks have embraced these goals while others have been more cautious and the growing profile of community organizing has even charged political debate Importantly Walls engages social movements literature to bring insights to our understanding of community organizing networks their methods allies and opponents and to show how community organizing offers concepts and tools that are indispensable to a democratic strategy of social change Community Organizing will be essential reading for advanced undergraduates and graduate students of sociology social movements and social work It will also inform organizers and grassroots leaders as well as the elected officials and others who contend with them

The Grand Jihad Andrew C McCarthy, 2012-01-17 The real threat to the United States is not terrorism The real threat is the sophisticated forces of Islamism which have collaborated with the American Left not only to undermine U S national security but to shred the fabric of American constitutional democracy freedom and individual liberty In *The Grand Jihad How Islam and the Left Sabotage America* bestselling author Andrew C McCarthy provides a harrowing account of how the global Islamist movement's jihad involves far more than terrorist attacks and how it has found the ideal partner in President Barack Obama whose Islamist sympathies run deep McCarthy is the former federal prosecutor who convicted the notorious Blind Sheikh and other jihadists for waging a terrorist war that included the 1993 World Trade Center bombing In his national bestseller *Willful Blindness A Memoir of the Jihad Encounter* 2008 he explored government's conscious avoidance of the terrorist threat which made the nation vulnerable to mass murder attacks In *The Grand Jihad* he exposes a more insidious peril government's active concealment of the Islamist ideology that unabashedly vows to conquer America With the help of witting and unwitting accomplices in and out of government Islamism doesn't merely fuel terrorism but spawns America hating Islamic enclaves in our midst and gradually foists Islam's repressive law sharia on American life The revolutionary doctrine has made common cause with an ascendant Left that also seeks radical transformation of our constitutional order The prognosis for liberty could not be more dire
