Bora Manual:

The Venus of Salò Ben Pastor, 2024-06-25 October 1944 in the Republic of Sal a German puppet state in the north of Italy and the last fascist stronghold in the country Transferred to the town of Sal on Lake Garda Wehrmacht colonel Martin Bora must investigate the theft of a precious painting of Venus by Titian While Bora's inquiry proceeds among many difficulties discovering three dead bodies throws an even more sinister light on the scene The victims are female very beautiful apparently dead by their own hand but in fact elegantly murdered Is it the work of a serial killer or are the homicides somehow related to the stolen Venus Why were intriguing clues left behind for Bora to find And why is there an official attempt to make the investigator himself appear as the culprit Caught in an unforeseeable web of events hounded by the Gestapo for years at his heels on the charge of anti Nazi activities hopelessly in love with an enigmatic real flesh Venus Bora must resort to all his courage and ability not only to solve the mystery and expose the perpetrator but also in a breathtaking crescendo to try to save himself from the firing squad and secure an unlikely way out

Handbook for Forecasters in the Mediterranean Elmar R. Reiter,1975 Technological Choices Pierre Lemonnier,2013-10-15 Technological Choices applies the critical tools of archaeology to the subject of technology and its impact on humankind throughout the ages An examination of the challenges technological innovations present to various cultures Technological Choices asserts that in any society such choices are made on the basis of cultural values and social relations rather than on the inherent benefits in technology itself Of course this revolutionary viewpoint has critical implications for contemporary Western societies Based on case studies covering a wide range of chronologies and geographies Technological Choices moves rapidly from Neolithic Europe to the modern industrial age stopping on the way to examine the tribes of Papua New Guinea rural Indian and North African societies as well as several European peasant communities The techniques studied range from the manufacture of stone implements to the development of high tech transportation devices With its breadth of subject matter and multidisciplinary approach Technological Choices offers new insight into the interrelationship between technology and society Also unprecedented is the book s emphasis on the functional aspects of material culture **Parliamentary Bills of Rights** Janet L. Hiebert,James B. Kelly,2015-01-29 Both New Zealand and the United Kingdom challenge assumptions about how a bill of rights functions Their parliamentary bills of rights constrain judicial review and also look to parliament to play a rights protecting role This arises from the requirement to inform parliament if legislative bills are not compatible with rights But are these bills of rights operating in this proactive manner Are governments encountering significantly stronger pressures to ensure legislation complies with rights Are these bills of rights resulting in more reasoned deliberations in parliament about the justification of legislation from a rights perspective Through extensive interviews with public officials and analysis of parliamentary debates where questions of compliance with rights arise prisoner voting parole and sentencing policy counter terrorism legislation and same sex marriage this book argues that a serious gap exists between the promise of these bills of rights and the institutional variables that influence how these parliaments function
