Borderlands Gloria Anzaldúa, 1999 The actual physical borderland that I'm dealing with in this book is the Texas U S Southwest Mexican border The psychological borderlands the sexual borderlands and spiritual borderlands are not particular to the Southwest In fact the Borderlands are physically present wherever two or more cultures edge each other where people of different races occupy the same territory where under lower middle and upper classes touch where the space between two individuals shrinks with intimacy Gloria Anzaldúa

Borderlands Gloria Anzaldúa, 1987 This collection of essays and poems remaps our understanding of what a border is presenting it not as a simple divide between here and there but as a psychic social and cultural terrain we inhabit

Borderlands Gloria Anzaldúa, 2007 The Twentieth Anniversary edition of Gloria Anzaldúa's classic exploration of life in the borderlands **From Borderlands/la Frontera: the New Mestiza** Lillian Castillo-Speed, *Feminism on the Border* Sonia Saldívar-Hull, 2000-05-09 Sonia Saldívar Hull's book proposes two moves that will no doubt leave a mark on Chicano a and Latin American Studies as well as in cultural theory The first consists in establishing alliances between Chicana and Latin American writers activists like Gloria Anzaldúa and Cherrie Moraga on the one hand and Rigoberta Menchu and Domitilla Barrios de Chungara on the other The second move consists in looking for theories where you can find them in the non places of theories such as prefaces interviews and narratives By underscoring the non places of theories Sonia Saldívar Hull indirectly shows the geopolitical distribution of knowledge between the place of theory in white feminism and the theoretical

non places of women of color and of third world women Sald var Hull has made a signal contribution to Chicano a Studies Latin American Studies and cultural theory Walter D Mignolo author of Local Histories Global Designs Coloniality Subaltern Knowledges and Border Thinking This is a major critical claim for the sociohistorical contextualization of Chicanas who are subject to processes of colonization our conditions of existence Through a reading of Anzaldua Cisneros and Viramontes Sald var Hull asks us to consider how the subalternized text speaks how and why it is muted How do testimonio autobiography and history give shape to the literary where embodied wholeness may be possible It is a critical de centering of American Studies and Mexican Studies as usual as she traces our cross ed genealogies situated on the borders Norma Alarcon Professor of Ethnic Studies University of California Berkeley

The Cambridge History of American Literature: Volume 7, Prose Writing, 1940-1990 Sacvan Bercovitch, Cyrus R. K. Patell, 1994 Volume VII of the Cambridge History of American Literature examines a broad range of American literature of the past half century revealing complex relations to changes in society Christopher Bigsby discusses American dramatists from Tennessee Williams to August Wilson showing how innovations in theatre anticipated a world of emerging countercultures and provided America with an alternative view of contemporary life Morris Dickstein describes the condition of rebellion in fiction from 1940 to 1970 linking writers as diverse as James Baldwin and John Updike John Burt examines writers of the American South describing the tensions between modernization and continued entanglements with the past Wendy Steiner examines the postmodern fictions since 1970 and shows how the questioning of artistic assumptions has broadened the canon of American literature Finally Cyrus Patell highlights the voices of Native American Asian American Chicano gay and lesbian writers often marginalized but here discussed within and against a broad set of national traditions

The Image of the River in Latin/o American Literature Jeanie Murphy, Elizabeth G. Rivero, 2017-12-20 Although fictional and often fantastic representations of nature have been a distinguishing feature of Latin American literature for centuries ecocriticism understood as the study of literature as it relates to depictions of the natural world environmental issues and the ways in which human beings interact and identify with their natural surroundings did not emerge as a field of scholarly interest in the region until the end of the twentieth century This volume employs an ecocritical lens in order to explore and question the use of the river imagery in Latino and Latin American literature from the colonial period to our modern world creating a space in which to examine both its literal and figurative meanings associated as much with processes of a personal nature as with those of the collective experience in the region The slow meandering streams of nostalgia the raging currents of conflict or the stagnant waters of social decay are just a few of the ways in which the river has become an important symbol and inspiration to many of the region s writers This book offers a diverse collection of writings that through a trans historical and trans geographical perspective allows us from the vantage point of the twenty first century to reflect on the rich and dynamic image of the river and by extension on the vital context of Latin o America its people and societies

Ashcroft, Gareth Griffiths, Helen Tiffin, 2006 Boasting new extracts from major works in the field as well as an impressive list of contributors this second edition of a bestselling Reader is an invaluable introduction to the most seminal texts in post colonial theory and criticism

The Riddling between Oedipus and the Sphinx Yuan Yuan, 2016-04-12 The issue of the other has always been an urgent one especially since 1980 s when the political debates over race gender class culture ethnicity and post colonialism took the central stage The Riddling between Oedipus and the Sphinx Ontology Hauntology and Heterologies of the Grotesque probes the polemic status of the other and the dubious nature of the subject from a heterodox perspective of an emblematic grotesque figure the Sphinx the mystical trickster and the guardian of sacred knowledge in Egyptian culture In Greek mythology Oedipus the epitome of Western logos solved the Sphinx s riddle with a single word Man This evocation for the phantom of a solipsistic subject discloses in effect Oedipus latent grotesque disparity The book explores the encounter of this unlikely pair to inquire the riddling relationship between the singular subject and the grotesque other in the context of modern discourses of the subject and postmodern theories of the other
