Teaching Entrepreneurship Peter van der Sijde, Annemarie Ridder, Gerben Blaauw, Christoph Diensberg, 2008-09-08 Entrepreneurship that is something you learn in practice Entrepreneurship is learning by doing This is often heard when you tell others that you teach entrepreneurship but maybe entrepreneurship is more doing by learning Nevertheless in entrepreneurship practice and theory are intertwined For this reason the Learning Cycle introduced by Kolb 1984 is an often used teaching approach According to this Learning Cycle there are four phases cycle that are connected 1 Concrete experience doing experiencing 2 Reflection reflecting on the experience 3 Conceptualization learning from the experience 4 Experimentation bring what you learned into practice In teaching you can enter this cycle at any stage depending on the students And that brings us to the different types of students Based on Hills et al 1998 a plethora of student groups can be distinguished of course this list is not exhaustive e.g. Ph.D students who do a doctoral programme in Entrepreneurship the emphasis is on theory science DBA students who do a doctoral programme that is in comparison to the Ph.D more practice

oriented MBA students who take entrepreneurship as one of the courses in their programme Most of the time MBA students are mature students who after some work experience return to the university the programme is practice oriented
