

A PASSION *for* WISDOM

A Very Brief History of Philosophy

ROBERT C. SOLOMON

KATHLEEN M. HIGGINS

A Passion For Wisdom A Very Brief History Of Philosophy

Ying Liu

A Passion For Wisdom A Very Brief History Of Philosophy:

A Passion for Wisdom Robert C. Solomon, Kathleen Marie Higgins, 1997 A lively accessible and highly enjoyable tour of the world's great ideas this splendid introduction to an intellectual tradition that reaches back over 3 000 years highlights major philosophers from Plato to Simone de Beauvoir

A Passion for Wisdom Robert C. Solomon, Kathleen M. Higgins, 1999-01-28 A study of the world's great ideas from Plato and Aquinas to William James and Simone de Beauvoir Aimed at those who wish to acquire a basic familiarity with the history of philosophy

What Nietzsche Really Said Robert C. Solomon, Kathleen M. Higgins, 2012-11-07 What Nietzsche Really Said gives us a lucid overview both informative and entertaining of perhaps the most widely read and least understood philosopher in history Friedrich Nietzsche's aggressive independence flamboyance sarcasm and celebration of strength have struck responsive chords in contemporary culture More people than ever are reading and discussing his writings But Nietzsche's ideas are often overshadowed by the myths and rumors that surround his sex life his politics and his sanity In this lively and comprehensive analysis Nietzsche scholars Robert C Solomon and Kathleen M Higgins get to the heart of Nietzsche's philosophy from his ideas on the will to power to his attack on religion and morality and his infamous *Übermensch* superman What Nietzsche Really Said offers both guidelines and insights for reading and understanding this controversial thinker Written with sophistication and wit this book provides an excellent summary of the life and work of one of history's most provocative philosophers

Passion, Death, and Spirituality Kathleen Higgins, David Sherman, 2012-05-30 Robert C Solomon who died in 2007 was Professor of Philosophy and Quincy Lee Centennial Professor of Business at the University of Texas USA As the first book comprehensively to examine the breadth of Solomon's contribution to philosophy this volume ranks as a vital addition to the literature It includes a newly published transcript of Solomon's last talk which responded to Arindam Chakrabarti on the concept of revenge as well as the considered views of prominent figures in the numerous subfields in which Solomon worked The content analyses his perspectives on the philosophy of emotion virtue business ethics and religion in addition to philosophical history existentialism and the many other topics that held this prolific thinker's attention Solomon memorably defined philosophy itself as the thoughtful love of life and despite the diversity of his output he was most drawn by central questions about the meaning of life the essential role that emotions play in finding that meaning and the human imperative to seek emotional integrity in which one's thoughts emotions and actions all contribute to a coherent narrative The essays included here draw attention to the interconnections between the issues Solomon addressed and evince the manner in which he embodied that integrity living a life at one with his philosophy They emphasize the central themes of passion ethics and spirituality which threaded through his work and the way these ideas informed his views on how we should approach grief and death The multiplicity of topics alone make this keystone work an enlightening read for a full spectrum of students of philosophy providing much to ponder and recounting a subtle and shining example of the emotional integrity Solomon

worked so hard to define **Philosophical Foundations for a Christian Worldview** J. P. Moreland, William Lane Craig, 2017-10-10 This comprehensive and award winning orientation to Christian philosophical foundations is now updated and expanded in a second edition including enhanced arguments updated bibliographies and new chapters on atonement and the mind body problem This textbook from Moreland and Craig two leaders in the field is the keystone in any library of Christian philosophy **Excel Senior High School Studies of Religion** Louise Fleming, 2001 **Perez, Brady, Halperin, and Wazer's Principles and Practice of Radiation Oncology** Edward C. Halperin, David E. Wazer, Brian C. Baumann, Rachel C. Blitzblau, Natia Esiashvili, 2025-06-26 For nearly 40 years Perez and Brady's Principles and Practice of Radiation Oncology has been the authoritative book of record for the field of radiation oncology Covering both the biological and physical science aspects of this complex field as well as site specific information on the integrated multidisciplinary management of patients with cancer Perez Brady continues to be the most comprehensive reference available for radiation oncologists and radiation oncology residents Under the editorial leadership of Drs Edward C Halperin David E Wazer and expert associate editors Drs Brian C Baumann Rachel C Blitzblau and Natia Esiashvili the fully revised 8th Edition now known as Perez Brady Halperin and Wazer's Principles and Practice of Radiation Oncology is available as a two volume hardcover edition Volume 1 covers The Scientific Technological Economic and Ethical Basis of Radiation Oncology while Volume 2 covers The Clinical Practice of Radiation Oncology *The Poetics of Philosophy [A Reading of Plato]* David Ross, 2008-12-18 The Poetics of Philosophy is my attempt to hear what academic philosophy attempts to silence namely how reason resonates with madness It is thus a stinging of the great steed of academia in order to recover and re experience what otherwise would be repressed by the exigencies of bureaucratic commodity life in the late capitalist world An analysis of Plato's principal dialogues with a view towards developing the author's conception of thinking knowing and loving it incorporates the insights of Heidegger Nietzsche and Derrida Provoking the world mind to reflect upon its phenomenological possibility for Being dispersed within its daily routines or business the book argues for the metaphysicality of physical reality articulated through the narrative trope of fractal dialectical logic The present volume's more general implications extend the insights of the author's previous work in the area of social science I refer to the possibility for world communist revolution which is predicated on communism's thorough ridding itself of its naive materialist perspective the relics of a Newtonian Universe and its embracing of a fractal dialectical logic or similar that is better able to incorporate the yearning for immortality desire to experience beauty and the need to have a meaningful life that define human species life To articulate such a framework is the aim of my general research *The Flesh of Being* David Ross, 2008-12-18 The text is a conversation between the author and himself mediated by the text of Friedrich Nietzsche's Thus Spoke Zarathustra The text is a pre text a reading both before and after that frames the art work What is that Let us say in the spirit of inquiry that of knowing thyself What then of this strange hyphenation The present text is a pre text because it is before the Text the text which the author is

always writing but which manifests itself in sporadic impulsive bursts in the form of actual works The book is the pre text because it is an excuse a rationale a piece of pretension The book is not about Nietzsche but what it is for someone to read Nietzsche s text a book for everyone and no one How then does one read a book meant for oneself if oneself is everyone and not at all for oneself if oneself is none Or is it that the real task of reading is for the reader to read what reading is Then again need one distinguish between book and text Perhaps it is impossible to read a book such as Thus Spoke Zarathustra without invoking the text or even sub text that continually slips away If one can read a book one cannot the text for this reason the text is what the reader has to write through the reading This has been my experience with Nietzsche s text an experience I share with my readers The very possibility of reading invokes the need to re write the text Only in the space between reading and writing can the reader re writer hope to stand and understand the discursive grounds Is that the play which this couplet performs There does not the reader enters upon the playground Read then and play The author s thanks go to Mr Andrew Fuyarchuk for the fine editing job that he did His contribution allowed further clarifications of the argument

The Cultural Theorist's Book of Quotations Arthur Asa Berger, 2016-06-16 Where did you see it that perfect quotation from Foucault or Kristeva to use in your upcoming keynote address Stop the search and pick up Arthur Berger s handy book of over 300 concise quotations from the vast literature in cultural theory This compilation will give you just the right snappy quote to help prepare that lecture write that paper fill that Power Point or drop a few bon mots at a university reception Organized by theoretical model semiotic Marxist psychoanalytic gender postmodernist Berger pulls together the most succinct meaningful passages of the key theorists of our time for those wanting to distill cultural theory to its essence
