The Later Works of John Dewey, Volume 6, 1925 - 1953 John Dewey, 2008-04 Except for Dewey's and James H. Tufts' 1932 *Ethics* Volume 7 of *The Later Works* this volume brings together Dewey's writings for 1931-1932. The Great Depression presented John Dewey and the American people with a series of economic, political, and social crises in 1931 and 1932 that are reflected in most of the 86 items in this volume, even in philosophical essays such as *Human Nature*. As Sidney Ratner points out in his Introduction, Dewey's interest in international peace is featured in the writings in this volume.

A Philosophy of Education Charlotte Mason, 2017-09-13 *A Philosophy of Education* is Volume 6 of the Home Education Series by Charlotte Mason in which she examines her 20 Principles in depth and provides curriculum guidance in all subjects. This edition has been edited to include the American English use of words, original page numbers noted within the text, translation of foreign phrases, and formatting that more easily conveys the original author's message. From Miss Mason's preface of this volume: "My object in offering this volume to the public is to urge upon all who are concerned with education a few salient principles which are generally either unknown or disregarded and a few methods which like that bathing in Jordan are too simple to commend themselves to the general. Yet these principles and methods make education entirely effectual."

The Origins of Nursery Education Kevin J. Brehony, 2024-08-01 This book illustrates how texts of German educationist Friedrich Froebel and those of his interpreters were read in England and what consequences these readings had for the education of young children in nursery and infant schools during the nineteenth century.

Charlotte Mason Summaries Leslie Noelani Laurio, 2005-08-13 Charlotte Mason in a Readers Digest version: Concise chapter by chapter summaries of all six of Charlotte Mason's volumes in one convenient book. Towards a Philosophy of Education Charlotte Mason, 2023-02-02 *Home Education Series Volume VI* and final book in the Home Education Series. This volume provides an overview of Charlotte Mason's educational philosophy and includes the final version of her 20 principles. Mason also discusses the practical application of her philosophy in the latter half of the book. This volume is directed to parents and future parents of children ages 12 and up. First published in 1922, this edition is derived from the original book and follows the original pagination and formatting for easy reference when using PNEU articles.

Pioneers in Early Childhood Education Patricia Giardiello, 2022-11-14 Rachel and Margaret McMillan, Maria Montessori, and Susan Isaacs have had a major impact on contemporary early years curriculum theory and practice. This insightful book introduces students and practitioners to the ideas, philosophies, and writings of these key early thinkers in early childhood education and shows how they relate to quality early years provision today. This new and revised edition introduces another pioneer, Charlotte Mason (1832-1923), who saw learning as a lifestyle rather than a means for passing tests and doing a set number of tasks, sentiments which resonate strongly today. The book explores the influences that shaped the ideas, values, and beliefs of each pioneer and clearly

demonstrates how they have each contributed to our knowledge of young children's learning and development. It then examines these in the context of current policy to highlight the key ideas that practitioners should consider when reflecting on their own practice. Features include: Summaries of each pioneer's ideas and their influence on contemporary practice; Practical examples to illustrate key principles; Reflective questions to encourage practitioners to develop and improve their own practice; Case studies and conversations from both England and Sweden to help further the application of knowledge into practice. Written to support the work of all those in the field of early childhood education, this book will be invaluable to students and practitioners who wish to fully understand the lasting legacies of these five influential women.

A Philosophy of Education Charlotte Mason, Rachel Lebowitz, 2019-09. The Annotated Edition of Volume 6 includes the full unabridged text of Charlotte Mason's original work *A Philosophy of Education*. All her words and wisdom have been retained while at the same time certain updates have been made for you, the modern reader. Charlotte wrote her six volumes of the Home Education Series from 1885-1921. Her frequent references can leave today's reader a bit frustrated as she assumed that her readers would understand the context for each person, event, or book that she mentions. Without that context, the wisdom of her words can seem veiled and inaccessible for many readers. My goal in adding annotations is to highlight Charlotte's text and make it easier to read so that you gain a deeper understanding of her words and meaning. Once you understand the references and the context, it is the key to unlocking the gate. You are no longer bogged down with unfamiliar terminology and references. The words soar.

THE ANNOTATED EDITION OF VOLUME 6 FEATURES The text has been updated with a modern font that is easier to read. American spellings, not British, are used throughout. The original page numbers as published in earlier editions of Charlotte's volumes are in the margins so you can easily cross-reference other editions or study guides. Annotations have been added. The annotations provide context to help you better understand Charlotte's frequent references to the people, events, and culture of her time. Gain a deeper understanding of Charlotte Mason's philosophy with the Annotated Editions from A Charlotte Mason Plenary.
