Exercises for advanced Spanish-speaking learners of English. Book 3. Kennedy-Scanlon, Michael, Cebrian, Juli, Bradbury, John, 2024-10-09 This book is the result of years of experience teaching English to Spanish undergraduates studying for a degree in English Language and Literature The focus of the book reflects the assumption that a large majority of the mistakes made by advanced level learners are the result of interference from their native language The approach adopted in this book is based on the idea that correcting one s own mistakes involves two separate operations namely first recognising the error as such and then providing the correction for it In the first two thirds of the book errors are explicitly identified for the learner whose task is simply to correct the errors In the final third however learners must carry out both operations It is this two step approach that the term guided error correction tries to reflect In order to provide sufficient practice each of the errors ali characteristic of Spanish speakers learning English occurs on six separate occasions in the

book In addition the book includes a section of brief explanatory notes at the back of the book where each of the errors is explained with Spanish translations provided to enhance comprehension of nuances in meaning These notes are cross referenced with each error in the exercises for handy referral but at the same time represent in themselves a compact reference source for common errors This book will be useful for advanced level Spanish speaking learners of English in any context though it has been designed primarily not for systematic consecutive classroom use but rather as a series of self correcting one page exercises that can be pursued sporadically at the learner s convenience This book is part of a series of three books Muros de discriminación y exclusión en la construcción de identidades: la mirada de las ciencias sociales.

Almudena Cotán Fernández, José Carlos Ruiz Sánchez, 2021 Si algo caracteriza a la globalización contemporánea es la apertura flexibilización y sobre todo la hibridación de la que estamos siendo testigos a la hora de construir las identidades Antes de que la interacción en internet por medio de las redes sociales hiciera acto de presencia la edificación de identidades tenía un marcado carácter de proximidad y presencialidad Los referentes en torno a los cuales pivotaba la pedagogía identitaria estaban configurados en los círculos de intimidad que se experimentaban en vivo y en directo que poseían un testimonio claro y personalmente conocido En este sentido el plano mediático como eje referencial para esta construcción de la personalidad se percibe desde la lejanía y se caracterizaba por un halo ilusorio *Insights into Non-native Vocabulary Teaching and Learning* Rubén Chacón-Beltrán, Christian Abello-Contesse, María del Mar Torreblanca-López, 2010-07-12 In a field like L2 vocabulary teaching and learning where interest and research studies are burgeoning this book offers a useful collection of papers that contains new ways of investigating vocabulary development techniques for vocabulary teaching such as the Focus on Form hypothesis word associations and the use of concordance data In addition it tackles recent areas of analysis such as the treatment of vocabulary in teaching materials an area of almost complete neglect in the literature The book is divided into three parts Part one provides the overview and deals with the development of a model for vocabulary teaching and learning Part two focuses on empirical studies on lexical processing in English and Spanish Part three centers on materials design for vocabulary teaching and learning The advances made in this book will certainly be of interest to researchers teachers and graduate students working on this very active field of inquiry **English-Spanish Dialogues II for Advanced Spanish and ESL** Gene Coates, 2017-03-11 English Spanish Dialogues II is a collection of over 60 conversations ranging from fundamental topics e.g. Beach Novels and Garden to academic e.g. Philosophy Algebra and Chemistry Revolving around a middle class family these conversations are presented in an easily accessible bilingual format ideal for classroom use allowing the student to attain authentic tone rhythm inflection and volume in context Throughout is a series of cartoons meant not only to enhance the vocabulary but also to bring life to the dialogues Choosing the dialogues most practical and interesting the student can be exposed to an ample variety of useful vocabulary lasting over a year at the rate of one dialogue per week The introduction presents a variety of standard and innovative methods for presenting the
