International Conference on Information Technology-New Generations (ITNG 2020) Shahram Latifi, 2020-05-11. This volume presents the 17th International Conference on Information Technology New Generations (ITNG) and chronicles an annual event on state-of-the-art technologies for digital information and communications. The application of advanced information technology to such domains as astronomy, biology, education, geosciences, security, and healthcare are among the themes explored by the ITNG proceedings. Visionary ideas, theoretical and experimental results, as well as prototypes, designs, and tools that help information flow to end users are of special interest. Specific topics include Machine Learning, Robotics, High Performance Computing, and Innovative Methods of Computing. The conference features keynote speakers, a best student contribution award, poster award, and service award, a technical open panel, and workshops, exhibits from industry, government, and academia. **Lectures on Data Security** Ivan Damgard, 2003-06-29. This tutorial volume is based on a summer school on cryptography and data security held in Aarhus, Denmark, in July 1998. The ten revised lectures presented are devoted to core topics in modern cryptology. In accordance with the educational objectives of the school, elementary introductions are provided to central topics, various examples are given of the problems encountered, and this is

supplemented with solutions open problems and reference to further reading The resulting book is ideally suited as an up to date introductory text for students and IT professionals interested in modern cryptology
