Hydrolysis in Drug and Prodrug Metabolism Bernard Testa, Joachim M. Mayer, 2003-08 Many drugs and other xenobiotics e g preservatives insecticides and plastifiers contain hydrolyzable moieties such as ester or amide groups In biological media such foreign compounds are therefore important substrates for hydrolytic reactions catalyzed by hydrolases or proceeding non enzymatically Despite their significance until now no book has been dedicated to hydrolysis and hydrolases in the metabolism of drugs and other xenobiotics This work fills a gap in the literature and reviews metabolic reactions of hydrolysis and hydration from the point of views of enzymes substrates and reactions

Comparison and Harmonisation of Denominator Data for Primary Health Care Research in Countries of the European Community

Martin Schlaud, 1999 Used extensively in North America and Europe seminal practice networks also referred to as practice research networks recruit office based physicians to monitor defined events among their patients such as influenza mumps and asthma attacks at regional county and even national levels After adequate analysis these data indicate spatial and temporal trends in event frequencies comparability of national results is however limited partly due to the different national health systems influencing the demand of medical care More importantly the lack of comparable data on the population from which the cases arise denominator data obstructs the comparison of data from primary care research between different regions or countries
