

INTRODUCTION HONDA CIVIC 3 SHAFT M24A

This Booklet covers the 3 shaft Honda unit that is found in the Civic models. Although at first glance you will see solenoids on this unit, it is not a computer controlled shifting model. The solenoids are for the converter clutch engagement. This unit is hydraulically controlled. This manual covers the remove and replace of the unit from the vehicle. The tear-down and assembly and a trouble shooting section. Again it is important to know which model you are working on. In the area on the transmission where the serial number is located it will show the model number, which is M24A. We thank HONDA for the illustrations and information that have made this booklet possible.

This information and part numbers contained in this booklet have been carefully compiled from industry sources known for their reliability, but ATSG does not guarantee the accuracy.
