Becoming Yourself Alison Miller, 2018-05-11 In contrast to the author's previous book *Healing the Unimaginable Treating Ritual Abuse and Mind Control* which was for therapists this book is designed for survivors of these abuses. It takes the survivor systematically through understanding the abuses and how his or her symptoms may be consequences of these abuses and gives practical advice regarding how a survivor can achieve stability and manage the life issues with which he or she may have difficulty. The book also teaches the survivor how to work with his or her complex personality system and with the traumatic memories to heal the wounds created by the abuse. A unique feature of this book is that it addresses the reader as if he or she is dissociative and directs some information and exercises towards the internal leaders of the personality system teaching them how to build a cooperative and healing inner community within which information is shared each part's needs are met and traumatic memories can be worked through successfully. **Morality, Mortality: Death and whom to**

**save from it** Frances Myrna Kamm, 1998 Critically examining other philosophers' ideas the author of this work explores the thinking behind the distribution of scarce resources such as transplant organs. Publisher Using Art, Play, Metaphor, and Symbol with Hard-to-Reach Young Clients Aileen Webber, James Webber, 2022-12-30 This book demonstrates some of the unique ways in which therapists can help complex and vulnerable clients considered hard to reach using arts media and play. Using a wealth of case studies contributors describe their unique therapeutic attempts to reach clients who for various reasons seem unreachable. These moving therapeutic journeys are described in a phenomenological auto ethnographic way by the therapists themselves as a series of snapshot glimpses into the therapy room. The therapists describe how combinations of art play metaphor and imagination have helped them navigate the complex pathways to reach their clients. Each chapter is fully supported by the contributing therapists' own selection of theoretical ideas and analysis. The book will help therapists consider innovative creative approaches in their work with clients who have been deemed too complex to work with in individual therapy emphasising the importance of play and arts resources in helping them achieve this. *A Real*

*Person* Gunilla Gerland, 2003 This memoir gives unique insights into what it means to be autistic. Gunilla writes simply and frankly about herself and her attempts to find a way for herself when everything she felt and did seemed at odds with everyone else.

**The Human Civilization** Valentin Matcas,2016-04-20 Were there advanced civilizations on Earth older than what it is currently believed and accepted Because we keep noticing their traces everywhere while authorities deny their presence Are there other civilizations out there among planets and stars Because we keep seeing their people around here pursuing their obscure interests with authorities ignoring everything Are there nonhuman civilizations on Earth in parallel with the human civilization Because they interact from the shadow of the underground with the human civilization while again authorities deny systematically their presence And when authorities are constrained in any way to give an answer they state vaguely that it is a matter of human survival And how can humans defend themselves of anyone and anything as they are held in ignorance and denial Is there life after death Because countless of people had died and came back to tell their story and it is always consistent This implies the existence of higher extraordinary civilizations in parallel with the human civilization from above These higher civilizations could be possible since their niches of life and existence are accurate and already present within other realities Science and academia ignore this topic entirely ridiculing all seekers of higher truth and forcing them in this manner to stop their research What can there be more important to know in this world than the meaning of life itself the meaning of this entire human civilization along with the meaning of the lives and existence of all humans here in this world and in all higher worlds Why postponing disclosure if it is imperative for people s wider existence Who profits and who loses through this entire coverup Who exactly controls the current human authority Why is humanity kept ignorant in what it concerns the most important subject of all life everywhere and life eternally intelligent and civilized life Because if there are other civilizations on Earth and elsewhere human or not if there are other realities up there besides this one populated and civilized then people s ignorance renders them vulnerable when they die and have to go elsewhere In this manner once you ignore the kind of realities that may be out there you might be tricked to go and live in treacherous dubious unholy worlds claiming that they are in fact the holly lands promised to you by your own religion And so you disappear Because it is stated in religious records to be careful not to follow false deities Yet how can you know anything in this domain if you are kept ignorant the entire time and probably lied to misled and many times tempted with irrelevant material compensations throughout life This book helps you understand civilizations from a rigorous comprehensive perspective including the meaning interests agreements and intentions that civilizations have in the wider world why individuals form civilizations as an end product of their cumulative lifetime efforts and furthermore what meanings these civilizations have in the wider world

**Making the New Post-Soviet Person** Jarrett Zigon,2010-03-25 The post Soviet years have widely been interpreted as a

period of intense moral questioning debate and struggle Despite this claim few studies have revealed how this moral experience has been lived and articulated by Russians themselves This book provides an intimate portrait of how five Muscovites have experienced the post Soviet years as a period of intense refashioning of their moral personhood and how this process can only be understood at the intersection of their unique personal experiences a shared Russian Soviet history and increasingly influential global discourses and practices The result is a new approach to understanding everyday moral experience and the processes by which new moral persons are cultivated

**Abused, Victimized, & Traumatized** Dazed, Crazy and Confused, 2002-01-07 HAVE YOU EVER WORKED FOR AN IDIOT While the characters and events in this book are fictitious most people will point to at least one story and say That happened to me or I worked for that Idiot WHY BUY THE BOOK The current book presents examples as though a manager would actually adopt these with this adoption creating an Idiot manager A sampling of some lessons for managers If you can't dazzle them with brilliance then confuse them with the absurd A happy employee is a conspiring employee When an employee makes an accusation ask a question This diverts attention from you and raises the issue of whether the employee is capable of knowing anything If the company wanted employees to have personal lives then it would have issued personal lives Through the use of mental torture you can achieve both physical and mental disturbances in employees yet you're not liable for physical torture If you've ever worked for an idiot then this book will hopefully provide some insight into the making of an idiot manager and in the process provide some laughter

**Homiletic Review**, 1914 **Like a Natural Woman** Kirsten Pullen, 2014-08-08 Bathing beauty Esther Williams bombshell Jane Russell exotic Carmen Miranda chanteuse Lena Horne and talk show fixture Zsa Zsa Gabor are rarely hailed as great actors or as naturalistic performers Those terms of praise are given to male stars like Marlon Brando and James Dean whose gritty dramas are seen as a departure from the glossy spectacles in which these stars appeared Like a Natural Woman challenges those assumptions revealing the skill and training that went into the work of these five actresses who employed naturalistic performance techniques both onscreen and off Bringing a fresh perspective to film history through the lens of performance studies Kirsten Pullen explores the ways in which these actresses who always appeared to be playing themselves responded to the naturalist notion that actors should create authentic characters by drawing from their own lives At the same time she examines how Hollywood presented these female stars as sex objects focusing on their spectacular bodies at the expense of believable characterization or narratives Pullen not only helps us appreciate what talented actresses these five women actually were but also reveals how they sought to express themselves and maintain agency even while meeting the demands of their directors studios families and fans to perform certain feminine roles Drawing from a rich collection of classic films publicity materials and studio archives Like a Natural Woman lets us take a new look at both Hollywood acting techniques and the performance of femininity itself
