more international and successive events take place in different European academic centres renowned for electromagnetic research. This time it was Prague famous for its beauty and historical background as it is the place where many cultures mingle. The venue of the conference was the historical building of Charles University placed just in the centre of Prague. The Technical University of Prague in turn constituted the logistic centre of the conference. It is the tradition of the ISEF meetings that they try to tackle quite a vast area of computational and applied electromagnetics. Moreover the ISEF symposia aim at combining theory and practice therefore the majority of papers are deeply rooted in engineering problems being simultaneously of a high theoretical level.
