Books in Motion Julie Dietzel-Glair, 2013-04-09 Librarians and educators can shake up storytimes, help children stay healthy and encourage a lifelong love of reading with Dietzel-Glair's easy-to-use resource. Demonstrating exactly how to use children's books to engage preschool-age children through movement, it's loaded with storytimes that will have children standing up tall, balancing as they pretend to walk across a bridge or even flying around the room like an airplane. Presenting hundreds of ideas, this all-in-one book is divided into six sections. Art spotlights titles that are natural hooks for art or craft activities alongside ideas on how to create art just like the character in the story, while an appendix includes art patterns that can be used as coloring sheets. Games includes searching games, follow the leader games, and guessing games to enhance the books in this section. Movement features books that kids can jump, stomp, clap, chomp, waddle, parade, wiggle, and stretch with. Music chooses books perfect for activities like shaking a maraca, singing, dancing between the pages, and creating new sound effects. Playacting lets kids pretend along with the characters in these books, whether it's washing their face, swimming with fish, or hunting a lion. Props encourages storytime leaders to bring out their puppets, flannelboard pieces, and scarves; these books have enough props for everyone in the program to have a part. Each chapter includes as much instruction as possible for a wide range of motions. Pick and choose the amount of movement that is right for your storytime crowd, or do it all.

The Art Activity Manual Marylyn Cropley, 2017-04-28 A simple, flexible, and practical approach to art activities, this book enables group members to explore and discover their own level of artistic skills, creative styles, and preferences. The activities can be used by anyone, regardless of art ability, and there are more than 100 ideas and suggestions with detailed session plans. Based on doing and enjoying the activities, use the minimum of equipment, and can be adapted to suit people with mixed abilities and level of need. Specifically designed for adults with learning disabilities, physical disabilities, and sensory loss, people with mental health needs, and older people, the activities can also be used by teachers and individual artists. Art is a powerful intervention and communication tool, and these activities can also be used to improve communication skills, build confidence, and self-esteem, and develop self-awareness. The practical and non-prescriptive approach of this photocopiable book is ideal for all group facilitators who need a quick and easy way of using art activities therapeutically.
