The Evolution of Religion, Religiosity and Theology Jay R. Feierman, Lluís Oviedo, 2019-09-11 This book takes a multi dimensional and multi disciplinary approach to religion religiosity and theology from their earliest beginnings to the present day It uniquely brings together the natural sciences and theology to explore how religious practice emerged and developed through the four sections into which the book is organized Evolutionary biology Philosophical linguistics psychology and neuroscience Theology and Anthropology The volume features an international panel of contributors who develop an innovative picture of religion as a culturally created social institution religiosity as a more personal and subjective anthropological element of people expressed through religion and theology as the study of god To survive in changing times living systems a good characterization of religion religiosity and theology all must adaptively evolve This is a vital study of a rapidly burgeoning field As such it will be of great interest to scholars in religious studies and theology as well as in the psychological sociological and anthropological study of religion

Sensing the Divine Michael N. Marsh, 2021-08-10 This book proposes another unique basis for the origins of religion from disturbances in brain function It proposes the novel idea that near death and out of body experiences ND OBE engendered a sense of the divine in ancient man As the author points out key aspects of ND OBE are thematic of all later established religions These include journeys to heaven sightings of brightly lit godlike figures and dead people now alive Thus ND OBE could be the originating source of these spiritual motifs To this the author adds a fourth factor various brain influences contribute to or modulate ND OBE Such cognate neurological disorders include REM sleep intrusions sleep paralysis narcolepsy and the Guillain Barr syndrome Errors due to aberrant switching between key neural control centers disrupt critical state boundaries between consciousness and dreaming This may induce NDE Thus in this state subjects temporarily fail to understand where they are undergo loss of self and detached from the world They imagine a union with Gods Here then is the biological basis of ineffability Ancient humans gained beliefs about the supernatural through day to day existence This book argues that near death experiences and cognate neurological conditions some genetically determined could have facilitated even augmented such beliefs Hence in configuring another realm of spiritual experience beyond the known environment these neurological possibilities offer effective traction

Disability and Music Performance Alejandro Alberto Téllez Vargas, 2018-06-12 Disability and Music Performance examines discriminatory social practices in music conservatoria orchestras music festivals and music competitions which limit disabled people's access to music performance at a professional level Of particular interest are the disabling barriers that musicians with an intellectual physical sensory or neurological disability or an acquired brain injury encounter in the world of Western classical music both as students and as professional performers This book collects data in the form of semi structured interviews and video and audio recordings to explore the voice concerns and suggestions

expressed by musicians with disabilities It examines their perceptions of both inclusive and discriminatory practices in music institutions as well as the representation of and audio visual recordings by key musical figures with disabilities Its findings aim to contribute to the wellbeing of musicians with impairments by challenging disabling social practices that see them as inferior This publication offers performers teachers and researchers new perspectives for exploring some of the most common social dynamics in encounters between normative audiences musicians and music critics and musicians with disabilities It invites the reader to recognise disability as a rightful identity category in music performance and to dismantle the disabling barriers that limit the participation of disabled people in music making
