Being Political Genealogies Of Citizenship:

Being Political Engin Fahri Isin, 2002-01-01 *Being Political* presents a powerful critique of universalistic and orientalist interpretations of the origins of citizenship and a persuasive alternative history of the present struggles over citizenship

Disenchanted Citizenship Luis F. B. Plascencia, 2012-07-04 Central to contemporary debates in the United States on migration and migrant policy is the idea of citizenship and as apparent in the continued debate over Arizona's immigration law SB 1070 this issue remains a focal point of contention with a key concern being whether there should be a path to citizenship for undocumented migrants In *Disenchanted Citizenship* Luis F B Plascencia examines two interrelated issues U S citizenship and the Mexican migrants position in the United States The book explores the meaning of U S citizenship through the experience of a unique group of Mexican migrants who were granted Temporary Status under the legalization provisions of the 1986 IRCA attained Lawful Permanent Residency and later became U S citizens Plascencia integrates an extensive and multifaceted collection of interviews ethnographic fieldwork ethno historical research and public policy analysis in examining efforts that promote the acquisition of citizenship the teaching of citizenship classes and naturalization ceremonies Ultimately he unearths citizenship's root as a Janus faced construct that encompasses a simultaneous process of inclusion and exclusion This notion of citizenship is mapped on to the migrant experience arguing that the acquisition of citizenship can lead to disenchantment with the very status desired In the end Plascencia expands our understanding of the dynamics of U S citizenship as a form of membership and belonging **Routledge Handbook of Global Citizenship**

Studies Engin Isin, Peter Nyers, 2014-06-27 Citizenship studies is at a crucial moment of globalizing as a field What used to be mainly a European North American and Australian field has now expanded to major contributions featuring scholarship from Latin America Asia Africa and the Middle East The *Routledge Handbook of Global Citizenship Studies* takes into account this globalizing moment At the same time it considers how the global perspective exposes the strains and discords in the concept of citizenship as it is understood today With over fifty contributions from international interdisciplinary experts the Handbook features state of the art analyses of the practices and enactments of citizenship across broad continental regions Africa's Americas Asia's and Europe's as well as deterritorialized forms of citizenship Diasporicity and Indigeneity Through these analyses the Handbook provides a deeper understanding of citizenship in both empirical and theoretical terms This volume sets a new agenda for scholarly investigations of citizenship Its wide ranging contributions and clear accessible style make it essential reading for students and scholars working on citizenship issues across the humanities and social sciences **Handbook of Citizenship Studies**

Engin F Isin, Bryan S Turner, 2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The *British Journal of Sociology* From women's rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend

has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997

Governing Affective Citizenship Marie Beauchamps, 2018-11-15 This book investigates politics of denaturalisation as a system of thought that influences seminal cultural political values such as community nationality citizenship selfhood and otherness The context of the analysis is the politics of citizenship and nationality in France Combining research insights from history legal studies security studies and border studies the book demonstrates that the language of denaturalisation shapes national identity as a form of formal legal attachment but also and more counter intuitively as a mode of emotional belonging As such denaturalisation operates as an instrumental frame to maintain and secure the national community Going back to eighteenth century France and to both World Wars periods during which governments deployed denaturalisation as a technology against threatening subjects the analysis exposes how the language of denaturalisation interweaves concerns about immigration and national security It is this historical backdrop that helps understand the political impact of denaturalisation in contemporary counterterrorism politics and what is at stake when borders and identities become affective technologies
