Worms Jane Cohen:

Joy of the Worm Drew Daniel, 2022-05-02 Consulting an extensive archive of early modern literature Joy of the Worm asserts that voluntary death in literature is not always a matter of tragedy In this study Drew Daniel identifies a surprisingly common aesthetic attitude that he calls joy of the worm after Cleopatra's embrace of the deadly asp in Shakespeare's play a pattern where voluntary death is imagined as an occasion for humor mirth ecstatic pleasure even joy and celebration Daniel draws both a historical and a conceptual distinction between self killing and suicide Standard intellectual histories of suicide in the early modern period have understandably emphasized attitudes of abhorrence scorn and severity toward voluntary death Daniel reads an archive of literary scenes and passages dating from 1534 to 1713 that complicate this picture In their own distinct responses to the surrounding attitude of censure writers including Shakespeare Donne Milton and Addison imagine death not as sin or sickness but instead as a heroic gift sexual release elemental return amorous fusion or political self rescue Joy of the worm emerges here as an aesthetic mode that shades into schadenfreude sadistic cruelty and deliberate trolling but can also underwrite powerful feelings of belonging devotion and love *Spinoza Contra*

Phenomenology Knox Peden, 2014-06-04 *Spinoza Contra Phenomenology* fundamentally recasts the history of postwar French thought typically presumed to have been driven by a critique of reason indebted to Nietzsche and Heidegger Although the reception of phenomenology gave rise to many innovative developments in French philosophy from existentialism to deconstruction not everyone in France was pleased with this German import This book recounts how a series of French philosophers used Spinoza to erect a bulwark against the nominally irrationalist tendencies of phenomenology From its beginnings in the interwar years this rationalism would prove foundational for Althusser's rethinking of Marxism and Deleuze's ambitious metaphysics There has been a renewed enthusiasm for Spinozism of late by those who see his work as a kind of neo vitalism or philosophy of life and affect Peden counters this trend by tracking a decisive and neglected aspect of Spinoza's philosophy his rationalism in a body of thought too often presumed to have rejected reason In the process he demonstrates that the virtues of Spinoza's rationalism have yet to be exhausted **Thinking with Shakespeare** Julia Reinhard

Lupton, 2019-10-04 What is a person What company do people keep with animals plants and things Such questions bearing fundamentally on the shared meaning of politics and life animate Shakespearean drama yet their urgency has often been obscured Julia Reinhard Lupton gently dislodges Shakespeare's plays from their historical confines to pursue their universal implications From Petruchio's animals and Kate's laundry to Hamlet's friends and Caliban's childhood Lupton restages thinking in Shakespeare as an embodied act of consent cure and care Thinking with Shakespeare encourages readers to ponder matters of shared concern with the playwright by their side Taking her cue from Hannah Arendt Lupton reads Shakespeare for fresh insights into everything from housekeeping and animal husbandry to biopower and political theology

Transparency in Postwar France Stefanos Geroulanos, 2017-09-05 This book returns to a time and place when the

concept of transparency was met with deep suspicion. It offers a panorama of postwar French thought where attempts to show the perils of transparency in politics, ethics, and knowledge led to major conceptual inventions, many of which we now take for granted. Between 1945 and 1985, academics, artists, revolutionaries, and state functionaries spoke of transparency in pejorative terms. Associating it with the prying eyes of totalitarian governments, they undertook a critical project against it in education, policing, social psychology, economic policy, and the management of information. Focusing on Sartre, Lacan, Canguilhem, L. vi Strauss, Leroi Gourhan, Foucault, Derrida, and others, *Transparency in Postwar France* explores the work of ethicists who proposed that individuals are transparent neither to each other nor to themselves, and philosophers who clamored for new epistemological foundations. These decades saw the emergence of the colonial and phenomenological other, the transformation of ideas of normality, and the effort to overcome Enlightenment-era humanisms and violence in the name of freedom. These thinkers' innovations remain centerpieces for any resistance to contemporary illusions that tolerate or enable power and social coercion.
