

How To Successfully Conduct a Screening Interview

7 TIPS

01 Prepare for the interview:

Review the candidate's profile and have the questions ready before the interview to make it efficient and productive.

02 Ask open-ended questions:

Open-ended questions allow you to gain deeper insights into candidates' personalities, skills, and values.

03 Encourage candidate questions:

Make the screening interview a two-way process by encouraging candidates to ask questions about the role, team, or company, helping them assess their fit and providing you with insights into their interests and priorities.

04 Maintain consistency:

Use a standardized set of questions in the same order for all candidates to keep interviews consistent and objective, facilitating easier comparison.

05 Screen in, not out:

Don't forget to consider transferable skills and non-traditional backgrounds to uncover candidate potential.

06 Adopt a professional & respectful approach:

Treat candidates with dignity and provide clear information, leaving a positive impression regardless of their fit for the role.

07 Create a post-interview process:

After the interview, review notes, share them with the hiring manager, consider candidates' fit beyond qualifications, and inform all candidates of their status respectfully.
