S Like If I Stay:

Transiciones Todd Ruecker, 2015-02-15 *Transiciones* is a thorough ethnography of seven Latino students in transition between high school and community college or university. Data gathered over two years of interviews with the students, their high school English teachers and their writing teachers and administrators at postsecondary institutions reveal a rich picture of the conflicted experience of these students as they attempted to balance the demands of schooling with a variety of personal responsibilities. Todd Ruecker explores the disconnect between students' writing experiences in high school and higher education and examines the integral role that writing plays in college. Considering the almost universal requirement that students take a writing class in their critical first year of college, he contends that it is essential for composition researchers and teachers to gain a fuller understanding of the role they play in supporting and hindering Latina and Latino students' transition to college. Arguing for situating writing programs in larger discussions of high school college alignment, student engagement and retention, *Transiciones* raises the profile of what writing programs can do while calling composition teachers, administrators and scholars to engage in more collaboration across the institution, across institutions and across disciplines to make the transition from high school to college writing more successful for this important group of students.

Kun-mkhyen Pad-ma dKar-po's Amitayus Tradition of Vajrayana Buddhist Transformative Care Bhikshuni Lozang Trinlae, 2017 The book opens fresh ground in Buddhist studies and practical theology by applying phenomenological research methods to empirically discern transformative aspects of contemplative experience using reports elicited directly from contemporary practitioners. The work portrays the experiences of performing Kun mkhyen Pad ma dKar po's 16th c ritual in a practice tradition attributed to the 12th c female Indian teacher Siddharaj i. Preliminary spiritual care and contemplative factor models are presented along with a detailed theoretical process analysis of positive spiritual development as a method of spiritual care through the contemplative action of the liturgy. Bhikshuni Lozang Trinlae is a fully ordained Buddhist monastic, contemplative, practical theologian and chaplain. Founder of Mahaprajapati Vihar hermitage in Solukhumbu, Nepal, her scholarly work is in the areas of contemplative studies and hermeneutics of lived religion and it explores the epistemological and transformative characteristics of religious experience. Series: Pastoral Care and Spiritual Healing. Spirituality & Interkulturell Vol 6. Subject: Buddhist Studies, Pastoral Care.
