Apexvs Answers College And Career Preparation

Dr. Jim Westmoreland

Apexvs Answers College And Career Preparation :

Career and College Readiness and Success for All Students Becky Smerdon, Kelli Kim, Corinne Alfeld, 2018 Most Americans no longer question whether and which students should be prepared for college. Rather, it is now widely accepted that ALL students should be prepared for postsecondary education in some form, e.g., certificate, 2 or 4 year degree, as these credentials are not only required for many jobs but are also the surest path to upward mobility. Carnevale, Rose, Cheah, 2011. There is also greater recognition that in addition to a more traditional approach to preparation for postsecondary education, e.g., taking college preparatory classes, students should also graduate high school with technical knowledge and employability skills to secure, retain, and advance their employment when they leave school at whatever level that may be. Simply put, today's high school graduates need a broad-based education that combines an array of knowledge, skills, and experiences to prepare them for life after high school. And indeed, state's definitions of college and career readiness have broadened in recent years to include a variety of skills and dispositions such as critical thinking skills, social/emotional skills such as collaboration and interpersonal skills such as resilience and perseverance. English, Rasmussen, Cushing, Therriault, 2016. The Every Student Succeeds Act (ESSA) of 2015, the key federal K-12 legislation, explicitly supports the notion of a well-rounded student, emphasizing readiness in areas beyond its predecessor's, the No Child Left Behind Act or NCLB, focus on core academic content. ESSA mandates that states ensure that students are provided an enriched, accelerated curriculum beyond courses and content areas in which state assessments are given, e.g., mathematics, reading, and that is aligned with the postsecondary experiences students are likely to encounter. ESSA also supports an expansion of readiness goals through provisions for the improvement of conditions for student learning that support social/emotional learning, intrapersonal skills, and other employability skills. And ESSA includes provisions in states' accountability systems that support emphasis on broader definitions of readiness. Additionally, ESSA's accountability framework includes important principles for supporting a broader definition of what students need to know and be able to do once they graduate high school. Accountability systems under ESSA may include multiple measures of college and career readiness. Indeed, several states had already added a career-focused indicator prior to ESSA passing, such as pathway completion or technical assessment achievement, to their accountability systems, and the number of states publicly reporting such indicators continues to increase. Achieve, AdvanceCTE, 2016. As definitions and measures of college and career readiness continue to evolve, we know one thing for sure: we need to better prepare ALL students for success after high school. This book explores the ways in which some education researchers are approaching this task.
