Art Deco And Other Figures:

Art Deco and Other Figures Bryan Catley, 2003 of key importance illustrating what is probably the largest selection of examples from the period *Antique Trade Gazette* This important book now available in a revised edition contains the most complete range of art deco figures ever published It is based partly on the original importers catalogues and partly on the wide range of pieces handled by the author Bryan Catley the leading specialist in the subject Between the wars an entirely modern style of decorative sculpture emerged which was a complete break with the heavy romantic late nineteenth century schools and was totally in sympathy with the vibrant young society of the 1920s The use of bronze and ivory for a great number of these sensual figures in no way obscures the fact that many are of exceptionally high quality add to this their sense of movement and rhythm and one realises that the large sums they now command is a reflection of a discriminative international collectors market AUTHOR Bryan Catley s original interest in the subject was fired when he inherited an art deco figure from his late grandmother s art collection During his student days at engineering college and after he was inspired to go on and buy every figure he could afford Later he and John Sparrow set up the business known as Catspa which for many years before their retirement was synonymous with Art Deco sculpture SELLING POINTS Contains the most comprehensive range of art deco figures ever published reprinted eight times so far since its first publication in 1978 Compiled by the leading specialist in these figures A popular collecting subject which is reflected in the enduring success of this important work of reference 100 b w 97 colour illustrations Art Market Research Tom McNulty, 2013-12-27 This book is for art market researchers at all levels A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues auction commercial gallery etc Library research skills are reviewed and advanced methods are explored in a chapter devoted to basic market research Because the monetary value of artwork cannot be established without reference to the aesthetic qualities and art historical significance of our subject works two substantial chapters detail the processes involved in researching and documenting the fine and decorative arts respectively and provide annotated bibliographies Methods for assigning values for art objects are explored and sources of price data both in print and online are identified and described in detail In recent years art historical scholarship increasingly has addressed issues related to the history of art and its markets a chapter on resources for the historian of the art market offers a wide range of sources Finally provenance and art law are discussed with particular reference to their relevance to dealers collectors artists and other art market stakeholders **The Cultural Lives of Greyhounds** John Stokes, 2025-02-07 This book aims to enhance our intellectual understanding of the relationship between human beings and domestic animals with a focus on a specific breed of dog the greyhound It combines literary criticism cultural history and the rapidly expanding field of human animal studies by tracing the creative representation of the greyhound from the earliest references in classical myth to multiple appearances in contemporary literature performance and the fine arts Each representation whether of hunter or
