Artifact In Behavioral Research:

Artifacts in Behavioral Research Robert Rosenthal, Ralph L. Rosnow, 2009-08-03 This new combination volume of three books in one dealing with the topic of artifacts in behavioral research was designed as both introduction and reminder It was designed as an introduction to the topic for graduate students advanced undergraduates and younger researchers It was designed as a reminder to more experienced researchers in and out of academia that the problems of artifacts in behavioral research that they may have learned about as beginning researchers have not gone away For example problems of experimenter effects have not been solved Experimenters still differ in the ways in which they see interpret and manipulate their data Experimenters still obtain different responses from research participants human or infrahuman as a function of experimenters states and traits of biosocial psychosocial and situational origins Experimenters expectations still serve too often as self fulfilling prophecies a problem that biomedical researchers have acknowledged and guarded against better than have behavioral researchers e g many biomedical studies would be considered of unpublishable quality had their experimenters not been blind to experimental condition Problems of participant or subject effects have also not been solved We usually still draw our research samples from a population of volunteers that differ along many dimensions from those not finding their way into our research Research participants are still often suspicious of experimenters intent try to figure out what experimenters are after and are concerned about what the experimenter thinks of them *Artifact in behavioral research* Robert Rosenthal, 1969 **Artifacts in Behavioral Research** Robert Rosenthal, Ralph L. Rosnow, 2009

Artifact in behavioral research, ed Robert Rosenthal, **People Studying People** Ralph L. Rosnow, Robert Rosenthal, 1997 This is a lively and engaging look at the factors known as artifacts that can confound behavioural experiments By describing key research studies in a narrative style Rosnow and Rosenthal address the issues of scientific method and clarify the difficulties that behavioural researchers will encounter Their final chapter addresses ethical issues again through narrative use of examples **Methods for Behavioral Research** Paul D. Cherulnik, 2001-07-19 Providing both a theoretical understanding of research issues and a nuts and bolts guide this book presents the critical issues in psychological research in a clear and easy to read manner Presented within the critical context of validity and reliability the author addresses all the steps of the research process from formulating a hypothesis to specifying variables to creating a research design to collecting and analyzing data to drawing conclusions to reporting the results A companion website www.sagepub.com/cherulnik for professors and students contains additional supporting materials **Design Science Research in Information Systems: Advances in Theory and Practice** Ken Peffers, Marcus Rothenberger, Bill Kuechler, 2012-05-08 This book constitutes the refereed proceedings of the 7th International Conference on Design Science Research in Information Systems and Technology DERIST 2012 held in Las Vegas NV USA in May 2012 The 24 revised full papers presented together with 7 revised short papers were carefully reviewed and selected from 44 submissions The papers are

organized in topical sections on DSRIS in practice DSRIS methodologies and techniques social and environmental aspects of DSRIS theory and theory building in DSRIS and evaluation of DSRIS projects

Design Research in Information

Systems Alan Hevner, Samir Chatterjee, 2010-06-14 It is 5 years since the publication of the seminal paper on Design Science in Information Systems Research by Hevner March Park and Ram in MIS Quarterly and the initiation of the Information Technology and Systems department of the Communications of AIS These events in 2004 are markers in the move of design science to the forefront of information systems research A sufficient interval has elapsed since then to allow assessment of from where the field has come and where it should go Design science research and behavioral science research started as dual tracks when IS was a young field By the 1990s the influx of behavioral scientists started to dominate the number of design scientists and the field moved in that direction By the early 2000s design people were having difficulty publishing in mainline IS journals and in being tenured in many universities Yes an annual Workshop on Information Technology and Systems WITS was established in 1991 in conjunction with the International Conference on Information Systems ICIS and grew each year But that was the extent of design science recognition Fortunately a revival is underway By 2009 when this foreword was written the fourth DESRIST conference has been held and plans are afoot for the 2010 meeting Design scientists regained respect and recognition in many venues where they previously had little

Web Based Project Coaching Yuriy Taranovych, 2013-05-24

The traditional project coaching takes place mostly in a number of face to face coaching sessions However under conditions of time pressure in IT projects a physical presence of coaches could form a bottleneck These facts led to the idea of using Internet technologies to support the project coaching The benefits of the web based project coaching reside in the ubiquitous availability of coaches To enable the web coaching a flexible support platform is required The elaboration of requirements design implementation and evaluation of such a platform is the goal of this dissertation The elaborated concept was applied and evaluated in real IT projects The numerous findings and implications could be gained on the empirical basis
