Global 1968 A. James McAdams, Anthony P. Monta, 2021-06-01 Global 1968 is a unique study of the similarities and differences in the 1968 cultural revolutions in Europe and Latin America The late 1960s was a time of revolutionary ferment throughout the world Yet so much was in flux during these years that it is often difficult to make sense of the period In this volume distinguished historians filmmakers musicologists literary scholars and novelists address this challenge by exploring a specific issue the extent to which the period that we associate with the year 1968 constituted a cultural revolution They approach this topic by comparing the different manifestations of this transformational era in Europe and Latin America The contributors show in vivid detail how new social mores innovative forms of artistic expression and cultural religious and political resistance were debated and tested on both sides of the Atlantic In some cases the desire to confront traditional beliefs and conventions had been percolating under the surface for years Yet they also find that the impulse to overturn the status quo was fueled by the interplay of a host of factors that converged at the end of the 1960s and accelerated the transition from one generation to the next These factors included new thinking about education and work dramatic changes in the self-presentation of the Roman Catholic Church government repression in both the Soviet Bloc and Latin America and universal disillusionment with the United States The contributors demonstrate that the short and long

term effects of the cultural revolution of 1968 varied from country to country but the period's defining legacy was a lasting shift in values, beliefs, lifestyles, and artistic sensibilities. Bibliography of Cello and Double Bass Ensemble Music for Three or More Celli and/or Double Basses. *The Routledge Handbook of Music and Migration* Wolfgang Gratzer, Nils Grosch, Ulrike Präger, Susanne Scheibelhofer, 2023-10-31. The Routledge Handbook of Music and Migration: Theories and Methodologies is a progressive transdisciplinary paradigm-shifting core text for music and migration studies. Conceptualized as a comprehensive methodological and theoretical guide, it foregrounds the mobile potentials of music and presents key arguments about why musical expressions matter in the discussion of migration politics. 24 international specialists in music and migration set methodological and theoretical standards for transdisciplinary collaborations in the field of migration studies, discussing 41 keywords such as mobility, community, research ethics, human rights, and critical whiteness in the context of music and migration. The authors then apply these terms to 16 chapters which deal with ethnomusicological, musicological, sociological, anthropological, geographical, pedagogical, political, economic, and media-related methodologies and theories which reflect and contest current discourses of migration. In their interdisciplinary focus, these chapters advance interrelations between music and migration as enabling factors for socio-cultural studies. Furthermore, the authors tackle crucial questions of agency, equality, and equity, as well as the responsibilities and expectations of writers and artists when researching migration phenomena as innate human experience. As a result, this handbook provides scholars and students alike with relevant and applicable methodological and theoretical tools in addition to an extensive literature and research review for further research.
