Astronomy And Astrology Finding A Relationship To The Cosmos:

Astronomy and Astrology Rudolf Steiner, 2009 From the Publisher In the Middle Ages Astronomia one of the Seven Liberal Arts was as much about astrology as astronomy In fact the two disciplines only parted company in the seventeenth century as the materialistic world view gained greater prominence Where once human destiny was connected to stars and planets and spiritual or soul qualities were associated with the natural world now the cosmos was seen as consisting of gases fire and dead rock Rudolf Steiner brings a new spiritual perspective to our study of the heavens Humanity he says is intimately connected to cosmic beings who in turn are related to planets and stars There is meaning in the cosmos Although Steiner rejects the simplistic notion of the planets determining our lives and behaviour he makes a clear connection between the heavenly bodies and human beings Whilst criticizing the superficial nature of much astrology Steiner shows that as individuals and with the guidance of spiritual beings we choose an appropriate time of birth to match the destiny we are to live This enlightening anthology expertly collated by Margaret Jonas features excerpts of Steiner's work on the spiritual individualities of the planets the determination of human characteristics by the constellation at birth the cultural epochs and the passage of the equinox cosmic influences on the individual and humanity life in the planetary spheres between death and rebirth solar and lunar eclipses comets and much more

Between Earth and Heaven Dawn Langman, 2021-11-10 In this third volume in The Actor of the Future series Dawn Langman continues to explore the integration of Steiner's research into speech drama and eurythmy with Michael Chekhov's acting methodology Her advanced applications of all the basic processes allow the art of the actor and speaker to evolve beyond the soul and body paradigm still broadly accepted in contemporary culture to include dimensions of the spirit The book contains a seminal analysis of comedy and tragedy showing how an understanding of their esoteric roots sprung from the Eleusis mysteries of ancient Greece deepen our appreciation and our ability to implement the practical suggestions made by Steiner and Chekhov to differentiate the fundamental styles A comprehensive exploration of the vowels in relation to planetary beings lays the foundation for many layers of artistic deepening and application Dawn Langman gifts us with yet another magnificent contribution to her book series developing an integrated acting technique based on the indications of Rudolf Steiner and Michael Chekhov in which actors become the work of art Venturing even further into the deeper alchemical mysteries of the work Langman leads us into an imagination of future theatre that includes a genuine experience of the I AM the origin of comedy and tragedy Dante's Paradiso as example of how we can experience the planetary spheres in word and gesture and much more inspiring the unfoldment of actors of the future Dr Jane Gilmer actress and teacher author of The Alchemical Actor 2021 and former Assistant Professor of Drama VPA National Institute of Education Singapore In this present volume Dawn Langman continues her in depth exploration of the integration of Michael Chekhov's system of psycho physical awareness with Rudolf Steiner's indications for creative speech and eurythmy In so doing she genuinely models both teachers emphasis on experimentation

and exploration absent the dogmatism sometimes associated with such work The careful conscious communication of her own advanced exercises created to develop this new methodology will be most effective when worked in conjunction with her previous books *The Art of Acting* *The Art of Speech* and *The Actor of the Future* Vols 1 2 Taken as a whole Langman reveals the degree of empathy and responsiveness possible not only between human beings but with all the manifold community of beings between earth and heaven Dr Diane Carracciolo Associate Professor of Educational Theatre Adelphi University USA

Word Made Flesh Dawn Langman, 2019-10-23 Building on the metahistorical exploration of drama that was the subject of *Tongues of Flame* Dawn Langman explores the practical pathways through which the art of acting can evolve beyond the body and soul paradigm still broadly accepted in contemporary culture Through the integration of Rudolf Steiner's research in the arts of speech and eurythmy and together with Michael Chekhov's acting techniques Langman raises the spiritual dimension of the human being from that vague sensing which many actors intuit but which has however little bearing on their practice into a precise methodology In this second volume in her series on *The Actor of the Future* she offers performance artists a clear pathway ahead enabling them to develop their work out of spiritual insight and consciousness
