The Real Internet Architecture Pamela Zave, Jennifer Rexford, 2024-06-25 A new way to understand the architecture of today's Internet based on an innovative general model of network architecture that is rigorous realistic and modular This book meets the long standing need for an explanation of how the Internet's architecture has evolved since its creation to support an ever broader range of the world's communication needs The authors introduce a new model of network architecture that exploits a powerful form of modularity to provide lucid insightful descriptions of complex structures functions and behaviors in today's Internet Countering the idea that the Internet's architecture is ossified or rigid this model which is presented through hundreds of examples rather than mathematical notation encompasses the Internet's original or classic architecture its current architecture and its possible future architectures For practitioners the book offers a precise and realistic approach to comparing design alternatives and guiding the ongoing evolution of their applications technologies and security practices For educators and students the book presents patterns that recur in many variations and in many places in the Internet ecosystem Each pattern tells a compelling story with a common problem to be solved and a range of solutions for solving it For researchers the book suggests many directions for future research that exploit modularity to simplify optimize and verify network implementations without loss of functionality or flexibility

Plagiarism, the Internet, and Student Learning Wendy Sutherland-Smith, 2008-04-24 Written for Higher Education educators managers and policy makers Plagiarism the Internet and Student Learning combines theoretical understandings with a practical model of plagiarism and aims to explain why and how plagiarism developed It offers a new way to conceptualize plagiarism and provides a framework for professionals dealing with plagiarism in higher education Sutherland Smith presents a model of plagiarism called the plagiarism continuum which usefully informs discussion and direction of plagiarism management in most educational settings The model was developed from a cross disciplinary examination of plagiarism with a particular focus on understanding how educators and students perceive and respond to issues of plagiarism The evolution

of plagiarism from its birth in Law to a global issue poses challenges to international educators in diverse cultural settings The case studies included are the voices of educators and students discussing the complexity of plagiarism in policy and practice as well as the tensions between institutional and individual responses A review of international studies plus qualitative empirical research on plagiarism conducted in Australia between 2004-2006 explain why it has emerged as a major issue The book examines current teaching approaches in light of issues surrounding plagiarism particularly Internet plagiarism The model affords insight into ways in which teaching and learning approaches can be enhanced to cope with the ever changing face of plagiarism This book challenges Higher Education educators managers and policy makers to examine their own beliefs and practices in managing the phenomenon of plagiarism in academic writing **International**
