Collinge, 2012-02-23 With about one billion members the Catholic Church is one of the world's largest religious bodies and its history is crucially linked to global events In the Historical Dictionary of Catholicism author William J Collinge provides the reader with a comprehensive introduction to the theology doctrines and worship of the religion He covers the entire Catholic tradition from the time of Jesus to the present including the periods before the present division of Christianity into Roman Catholic Eastern Orthodox and Protestant Collinge has also included entries on heretical schismatic and dissident movements within Catholicism and he covers the relation of Catholicism to other Christian traditions to the major non Christian religions and to Western cultural and philosophical traditions The second edition of the Historical Dictionary of Catholicism has been updated to reflect recent developments in the Catholic Church most notably the death of Pope John Paul II and his succession by Pope Benedict XVI An updated introduction precedes the main body of the dictionary which contains more than 500 alphabetical cross referenced entries covering persons organizations places events titles and concepts The entries are followed by several appendixes on popes ecumenical councils the documents of Vatican Council II major papal encyclicals and Catholic prayers and a comprehensive bibliography provides the researcher with further readings The second edition of the Historical Dictionary of Catholicism is an ideal access point for students researchers or anyone interested in the history of the Catholic Church

The Years of Jesuit Suppression, 1773-1814: Survival, Setbacks, and Transformation Paul Shore, 2019-12-30 The forty one years between the Society of Jesus's papal suppression in 1773 and its eventual restoration in 1814 remain controversial with new research and interpretations continually appearing Shore's narrative approaches these years and the period preceding the suppression from a new perspective that covers individuals not usually discussed in works dealing with this topic As well as examining the contributions of former Jesuits to fields as diverse as ethnology a term and concept pioneered by an ex Jesuit and library science where Jesuits and ex Jesuits laid the groundwork for the great advances of the nineteenth century the essay also explores the period the exiled Society spent in the Russian Empire It concludes with a discussion of the Society's restoration in the broader context of world history

From Monophysitism to

Nestorianism Theodore Sabo, 2018-04-18 The most important Christological controversies were waged during the Third through the Sixth Ecumenical Councils This book argues that each of these councils can be characterized by the labels Nestorian Monophysite or proto Monophysite In the Third and Fourth Councils a Nestorian or Antiochene victory followed a Monophysite one and the pattern was repeated identically with the Fifth and Sixth Councils If this seems to damage the religious interpretation of the councils as the slow hammering out of orthodoxy or to contradict the current interpretation of the councils it is not meant to In contrast to R V Sellers the distinctions between the Alexandrian and Antiochene approaches to Christology are maintained and each council is labeled as coming down on one or the other of the two sides The book s title reflects a half truth Orthodox Christology at least until the outbreak of the Iconoclastic crisis was characterized by a progression from the deifying and unifying impulse of the Alexandrian school in favor of the humanizing and dichotomizing tendency of the Antiochene However this book does not affirm anything other than that early orthodoxy successfully navigated the often narrow strait between Nestorianism and Monophysitism By continually changing sides and by declaring the decrees of all previous councils binding it found itself outwitting both the Monophysites and the Nestorians *Members of the Gregorian Mission* , **The Papacy in the Age of Totalitarianism, 1914-1958** John Francis Pollard, 2014 The Papacy in the Age of Totalitarianism 1914 1958 examines the most momentous years in papal history Popes Benedict XV 1914 1922 Pius XI 1922 1939 and Pius XII 1939 1958 faced the challenges of two world wars and the Cold War and threats posed by totalitarian dictatorships like Italian Fascism German National Socialism and Communism in Russia and China The wars imposed enormous strains upon the unity of Catholics and the hostility of the totalitarian regimes to Catholicism lead to the Church facing persecution and martyrdom on a scale similar to that experienced under the Roman Empire and following the French Revolution At the same time these were years of growth development and success for the papacy Benedict healed the wounds left by the modernist witch hunt of his predecessor and re established the papacy as an influence in international affairs through his peace diplomacy during the First World War Pius XI resolved the Roman Question with Italy and put papal finances on a sounder footing He also helped reconcile the Catholic Church and science by establishing the Pontifical Academy of Sciences and took the first steps to move the Church away from entrenched anti Semitism Pius XI continued his predecessor s policy of the indigenisation of the missionary churches in preparation for de colonisation Pius XII fully embraced the media and other means of publicity and with his infallible promulgation of the Assumption in 1950 he took papal absolutism and centralism to such heights that he has been called the last real pope Ironically he also prepared the way for the Second Vatican Council *Our Dogs, Our Selves* , 2016-09-12 The ubiquity of references to dogs in medieval and early modern texts and images must at some level reflect their actual presence in those worlds yet scholarly consideration of this material is rare and scattered across diverse sources This volume addresses that gap bringing together fifteen essays that examine the appearance meaning and significance of dogs in painting sculpture manuscripts literature and legal records

of the period reaching beyond Europe to include cultural material from medieval Japan and Islam While primarily art historical in focus the authors approach the subject from a range of disciplines and with varying methodology that ultimately reveals as much about dogs as about the societies in which they lived Contributors are Kathleen Ashley Jane Carroll Emily Cockayne John Block Friedman Karen M Gerhart Laura D Gelfand Craig A Gibson Walter S Gibson Nathan Hofer Jane C Long Judith W Mann Sophie Oosterwijk Elizabeth Carson Pastan Donna L Sadler Alexa Sand and Janet Snyder *Monthly Entries for the Spiritual but not Religious through the Year* Mark G. Boyer, 2022-08-30 This is a book about spirituality for the spiritual but not religious Those who identify themselves as spiritual but not religious make up one quarter of the population in the United States This book provides 189 monthly entries based on the national and international celebrations that occur every month Each entry begins with the name of the occasion and the date when it is marked during the month A text from the Bible a US public law a presidential proclamation a United Nations declaration etc that illustrates the day is presented The text is followed by a reflection which gleans the spirituality from the text and provides historical background on the day being celebrated Journal meditation questions follow the reflection and a prayer concludes the entry This book is for the spiritual but not religious a practice of spirituality that does not regard organized religion as a valuable means to further interior spiritual growth A section of the introduction to the book explores who the spiritual but not religious are and presents the common themes that surface from research about them **A Bond between Souls** Coleman M. Ford, 2022-11-09 Augustine's theology of friendship The discovery of Augustine's letters in the mid twentieth century provided a watershed moment for understanding the bishop of Hippo The letters of Augustine offer a window into his life They showcase a theologian on the run working through difficult pastoral issues They also show another side of Augustine the theologian as friend In *A Bond between Souls* Friendship in the Letters of Augustine Coleman M Ford examines Augustine's understanding of friendship For Augustine friendship is the overflow of love and is essential for building Christlike virtue Friendship differs by context and relationship but is fundamentally rooted in the reality that in Christ friendship with God has been restored In this sense friendship is fundamentally a spiritual exercise With original research rooting Augustine's letter writing theology and understanding of friendship in antiquity *A Bond between Souls* helps readers to understand this doctor of the church in a deeper way **Lorca in Tune with Falla** Nelson R. Orringer, 2014-02-05 Federico Garc a Lorca 1889 1936 is widely regarded as the greatest Spanish poet of the twentieth century Manuel de Falla 1876 1946 is Spain's most performed composer of the same period The two were very different Lorca was gay liberal and a member of the avant garde while Falla was a devout Catholic yet they had a profound mutual influence The two developed an intimate friendship which ended when Lorca was shot by Nationalist forces at the beginning of the Spanish Civil War *Lorca in Tune with Falla* is the first book to trace Lorca's impact on Falla's music and Falla's influence on Lorca's writings Nelson R Orringer explores the music underlying *Poem of Deep Song* *Gypsy Ballads* and *Lament for Ignacio S nchez Mej* as bringing

out the analogous sounds and ideas that emerge in the active ongoing connection between the artworks of both creators The book emphasizes how this harmony increases knowledge and appreciation of both artists
