

WHAT IS RHETORIC?

Rhetoric is the art and technique of using language persuasively to influence the beliefs, attitudes, or behaviors of others.

It involves the skillful use of words, arguments, and rhetorical devices such as metaphor, analogy, and irony to achieve effective persuasion.

Rhetoric is employed in political speeches, debates, advertising, and persuasive writing with the purpose of convincing, informing, or moving the audience.

In addition to its utility in communication, rhetoric is also studied as an academic discipline to understand how persuasive messages are constructed.

H. Knoblauch, Lil Brannon, 1984 The argument of this book is that the earliest tradition of Western rhetoric the classical perspective of Aristotle and Cicero continues to have the greatest impact on writing instruction albeit an unconscious impact This occurs despite the fact that modern rhetoric no longer accepts either the views of mind language and world underlying ancient theory or the concepts about discourse knowledge and communication presented in that theory As a result teachers are depending on ideas as outmoded as they are unreflectively accepted Knoblauch and Brannon maintain that the two traditions are fundamentally incompatible in their assumptions and concepts so that writing teachers must make choices between them if their teaching is to be purposeful and consistent They suggest that the modern

tradition offers a richer basis for instruction and they show what teaching from that perspective looks like and how it differs from traditional teaching
