Fungi and Cyanobacteria Ross McKenzie, 2020-05-01 Australia's Poisonous Plants Fungi and Cyanobacteria is the first full colour comprehensive guide to the major natural threats to health in Australia affecting domestic and native animals and humans. The overriding aim of the book is to prevent poisoning as there are few effective treatments available particularly in domestic animals. The species have been chosen because of their capacity to threaten life or damage important organs, their relative abundance or wide distribution in native and naturalised Australian flora or because of their extensive cultivation as crops, pastures or in gardens. These include flowering plants, ferns and cone bearing plants, macrofungi, ergot fungi and cyanobacteria. The plant species are grouped by life form such as herbs, grasses and sedges, shrubs, trees and for flowering plants by flower type and colour for ease of identification. Species described have colour photographs, distribution maps and notes on confusing species, habitats, toxins, animals affected, conditions of poisoning, clinical signs and symptoms, post mortem changes, therapy, prevention and control. Symbols are used for quick reference to poisoning duration and available ways of managing poisoning. As further aids to understanding poisoning, hot spots are highlighted and the book lists plants under the headings of animals affected and organs affected. A Digest gives brief details for all poisonous species in Australia. This book is written in a straightforward style making it accessible to a wide audience including farmers, veterinarians, agricultural advisors, gardeners, horticulturists, botanists and park rangers, medical practitioners and paramedics, teachers, parents and pet owners. First published in 2012 as a hardback and made available in eBook format in 2020. **The Atlas of the World's Most Dangerous Animals** Paula Hammond, 2010 In vivid detail this atlas takes account of fifty of the most dangerous animals on earth. **Australian History for Dummies** Alex McDermott, 2011-05-16 Created especially for the Australian customer.
