A Nation Like No Other Why American Exceptionalism Matters:

Summary: A Nation Like No Other BusinessNews Publishing,2017-01-30 The must read summary of Newt Gingrich's book *A Nation Like No Other Why American Exceptionalism Matters* This complete summary of *A Nation Like No Other* by Newt Gingrich a Republican politician and former speaker of the United States House of Representatives discusses the phenomenon of American Exceptionalism the belief that America has a unique and significant role to play in the world as conceived by the country's founding fathers He argues that it is essential for the survival of the nation the protection of American liberties and ensuring that America remains the most powerful and prosperous nation on earth Added value of this summary Save time Understand American Exceptionalism Expand your knowledge of American society and politics To learn more read *A Nation Like No Other* and discover why Gingrich believes that national exceptionalism is key to the survival of the world's most powerful country *A Nation Like No Other* Newt Gingrich,2011-06-13 A best selling author and former speaker of the House argues for American Exceptionalism the notion that Americans get their rights not from the government but from God 300 000 first printing **Anti-Americanism and American Exceptionalism** Brendon O'Connor,2019-06-21 This book argues against the tendency to see America as the worst or best nation and instead presents a case for seeing anti Americanism as a counterproductive prejudice There are many reasons to criticise American policies politics and even society but a crucial distinction must be drawn between criticism and prejudice Charting the development and adaptation of this anti American tradition O Connor maintains that it is important to contextualise it within the particularities of the American experience and the global reach of the United States influence and power He argues for a move away from stereotypes and caricatures towards more specific and profitable discussions about American actions and policies Offering precise and useful ways of understanding anti Americanism and American exceptionalism that place the terms in their relevant political contexts this volume is a useful and engaging resource for those researching or studying American politics and ideology foreign policy American culture and international relations *The American Exception, Volume 1* Frank J. Lechner,2017-01-09 This book examines what makes the United States an exceptional society what impact it has had abroad and why these issues have mattered to Americans With historical and comparative evidence Frank J Lechner describes the distinctive path of American institutions and tracks changes in the country's national identity in order to assess claims about America's exceptional qualities The book analyzes several focal points of exceptionalist thinking about America including the importance of US Constitution and the American sense of mission and explores several aspects of America's distinctive global impact for example in economics and film In addition to discussing the distinctive global impact of the US this first volume delves into religion law and sports *American Exceptionalism* Lall Ramrattan,Michael Szenberg,2019-01-31 The publication of Alexis de Tocqueville's *Democracy in America* has kindled interest across disciplines to appraise the exceptional nature of U S activities In general however all the published works have not focused their

analyses from an economic point of view While economics was for some a dismal science following Thomas Carlyle's characterization of Malthus demographic model it has increasingly become the queen of the social sciences for more practitioners The book fills a gap in the literature by describing the American contributors as precursors and genuinely exceptional economists We present their works within the state of the nation in which they advance their discipline One is treated to both qualitative and quantitative theories in the opening chapter Budding theories that became established theories of Economics and Finance are investigated in Chapters II and III When President John Adams was confronted with M Turgot's criticisms of the American government he resorted to a historic survey of types of government from ancient Greece to the Middle Ages Similarly we have included a final chapter Chapter IV to present the argument for American Exceptionalism in the domain of Political Economy and Economic Law over the ages

Democracy's Muse Andrew Burstein, 2015-04-13 In political speech Thomas Jefferson is the eternal flame No other member of the founding generation has served the agendas of both Left and Right with greater vigor When Franklin Roosevelt dedicated the iconic Jefferson Memorial on the founder's two hundredth birthday in 1943 he declared the triumph of liberal humanism Harry Truman claimed Jefferson as his favorite president too And yet Ronald Reagan was as great a Jefferson admirer as any Democrat He had a go to file of Jefferson's sayings and enshrined him as a small government conservative So who owns Jefferson the Left or the Right The unknowable yet irresistible third president has had a tortuous afterlife and he remains a fixture in today's culture wars Pained by Jefferson's slaveholding Democrats still regard him highly Until recently he was widely considered by many African Americans to be an early abolitionist Libertarians adore him for his inflexible individualism and although he formulated the doctrine of separation of church and state Christian activists have found intense religiosity between the lines in his pronouncements The renowned Jefferson scholar Andrew Burstein lays out the case for both Democrat and Republican Jefferson as he interrogates history's greatest shape shifter the founder who has inspired perhaps the strongest popular emotions In this timely and powerful book Burstein shares telling insights as well as some inconvenient truths about politicized Americans and their misappropriations of the past including the concoction of a Jeffersonian stance on issues that Jefferson himself could never have imagined Here is one book that is more about us than it is about Jefferson It explains how the founding generation's most controversial partisan became essential to America's quest for moral security how he became in short democracy's muse

Exceptional America Mugambi Jouet, 2017-04-03 Why does a country built on the concept of liberty have the highest incarceration rate in the world How could the first Western nation to elect a person of color as its leader suffer from institutional racism How does Christian fundamentalism coexist with gay marriage in the American imagination In essence what makes the United States exceptional In this provocative exploration of American exceptionalism Mugambi Jouet examines why Americans are far more divided than other Westerners over basic issues including wealth inequality health care climate change evolution the literal truth of the Bible abortion gay rights gun control mass

incarceration and war Drawing inspiration from Alexis de Tocqueville Jouet raised in Paris by a French mother and a Kenyan father wields his multicultural sensibility to parse the ways in which the intense polarization of U S conservatives and liberals has become a key dimension of American exceptionalism an idea widely misunderstood to mean American superiority Instead Jouet contends that exceptionalism once a source of strength may now spell decline as unique features of U S history politics law culture religion and race relations foster grave conflicts and injustices This book offers a brilliant dissection of the American soul in all of its outsize clashing and striking manifestations *Understanding American Power* Bryan

Mabee,2013-10-01 This broad ranging assessment of US power in the twenty first century covers not just the nature and mechanics of foreign policy but the broad array of economic military political social and ideological forces that shape America s global position and role all set in a clear historical context **US Foreign Policy** Richard Johnson,2021-06-29

Paying close attention to its domestic roots this textbook provides a valuable introduction to the construction and application of US foreign policy in the modern era Accessibly written and including helpful illustrative material a glossary and guide to further reading it is organised around four broad themes the ideologies of US foreign policy the institutions of US foreign policy making the actors who influence and shape the content of US foreign policy the policy goals and ideas that motivate US foreign policy Drawing from analyses of the broader history of US foreign policy throughout the post Second World War period the book encourages readers to think about how these ideas institutions and goals have been at work in the foreign policy of recent presidential administrations including those of George W Bush Barack Obama Donald Trump and Joe Biden

China Dreams William A. Callahan,2015 To understand how China is shaping the twenty first century William Callahan s *China Dreams* eavesdrops on conversations between officials scholars bloggers novelists film makers and artists Rather than pitting Confucian China against the democratic west Callahan weaves Chinese and American ideals together to describe a new Chimerican dream

Ignite the flame of optimism with is motivational masterpiece, Find Positivity in **A Nation Like No Other Why American Exceptionalism Matters** .
