A Project Guide To Chemistry Physical Science Projects For Kids:

A Project Guide to Light and Optics Colleen Kessler, 2012 What do CDs lamps lasers and microwave ovens all have in common They all use the power of light and optics From ancient times when scientists puzzled over the effects of the Sun on Earth to today where scientists and engineers use lasers to make precise cuts in metal people have been fascinated by light and optics In this book you ll delve into this incredible subject and learn how light can bend and bounce You ll understand how scientists use light to send data from one side of the world to the other And you ll have fun discovering new things to do with flashlights and mirrors These experiments and activities can be used as a starting point for science fair projects or you can do them just for fun Either way you ll find out a lot about the properties of light **A Project Guide to Sound** Colleen Kessler, 2012 Babies crying school bells ringing cars roaring by the ding signaling that a new text message has arrived sounds are all around us but how are they made And how do we hear them Sounds are created when air vibrates and we hear them because our ears are specially developed to funnel in and process those vibrations Through the activities and experiments in this book you ll take a hands on look at how sounds are made and how they are heard From salt drums to xylophones and sonic booms you ll have fun making music and noise and learning a little along the way *A Project Guide to Forces and Motion* Colleen Kessler, 2012 Scientists have known for a long time that things move in predictable patterns It took an apple falling to help further their knowledge though We now know how things move and why Scientists continue to study motion and the forces that cause it and you can too In this book you ll learn about pushes and pulls and different types of energy The next time you play soccer you ll be able to use your new scientific knowledge to teach your friends and family why that soccer ball moves the way it does **A Project Guide to Matter** Claire O'Neal, 2012 The water you drink The air you breathe This book you re holding Everything around you is made of matter Learn more about what makes up matter the forms it can take and nature s rules about it With inexpensive items that you probably have lying around your home you can do these easy and fun experiments on solids liquids and gases Think like a chemist as you construct a tower of liquids grow your own crystals and even measure the speed of smell Explore the powerful world of matter from the visible to the invisible **A Project Guide to Electricity and Magnetism** Colleen Kessler, 2012 Electrical and magnetic forces are so much a part of our everyday lives that we don t often think about how they work or how they are related Before digital music players and eBook readers were commonplace though scientists put a lot of effort into discovering just what these forces were and how to harness their energy in ways that would make life easier Through their experimentation they discovered the connection between electrical and magnetic forces They found ways to bring electricity to people who wanted it Today we benefit from these discoveries but there are always new things to discover Whether you try the experiments and activities in this book for fun or for a science fair project you ll get an up close look at the forces of electricity and magnetism Enjoy each of the shocking activities in this book as you discover the pull of science **A Project Guide to Chemistry** Claire O'Neal, 2011-09-15

When tiny atoms interact their chemistry affects our world From cars rusting to stomachs digesting chemical reactions make things happen See the invisible atomic world with these easy and fun projects on chemistry and chemical reactions that you can do yourself Think like a chemist as you burn oxygen in air move microscopic metals through solution make your own plastic and much more Uncover nature s mysterious recipes with chemistry [Cool Chemistry Activities for Girls](#) Jodi Lyn Wheeler-Toppen,2014-11-01 Get your science groove on and check out these awesome chemistry projects Fountains of flowing fun Ooey gooey stress relieving putty Super sweet candy necklaces Chemistry is easy when you re having this much fun **The Basics of Chemistry** Allan B. Cobb,2013-12-15 A fun filled introduction to matter the elements of the periodic table and atoms electrons reactions and bonding and radioactivity this volume provides young adults with chemistry examples that reflect their real world interconnections in science Key terms easy experiments and clear illustrations help to guide students through chemical applications A chapter about Niels Bohr and his model for the atom honors his contribution to atomic structure and to nuclear fission Tools and techniques such as a scanning tunneling microscope Rutherford s gold foil experiment and a mass spectrometer highlight this instructive text that is aligned to the Common Core standards [Resources in Education](#) ,1997 *Research in Education* ,1974
