A Mixture Of Buddhism Taoism And Confucianism:

Managers and Management in Vietnam Vincent Edwards, Anh Phan, 2013-01-17 This book presents a comprehensive overview of managers and management in Vietnam based on extensive original research including interviews with a large number of managers in Vietnam It shows how management in Vietnam is best understood from the perspective of Vietnamese managers themselves rather than in terms of Western or Asian models of management It discusses the range of enterprises in the Vietnamese economy which until 1986 was dominated by large state owned enterprises and Soviet style central economic planning and where there is now a much greater variety with a mix of privatised state owned enterprises foreign owned companies joint ventures and a very large number of relatively small private companies all operating in a social market economy where Party ideology emphasises a balance between economic growth and workers rights The book demonstrates how the tensions arising from this economic landscape are reflected in the views and actions of managers as they balance economic and social goals in their work and how their activities are constrained further by the enduring influence of local culture which is not always amenable to imported ideas and methods As many managers have worked in different kinds of companies the book also reveals a great deal about management in different contexts and also about how companies have changed as the reform process has evolved

Richard Wright Writing America at Home and from Abroad Virginia Whatley Smith, 2016-06-27 Contributions by Robert J Butler Ginevra Geraci Yoshinobu Hakutani Floyd W Hayes III Joseph Keith Toru Kiuchi John Lowe Sachi Nakachi Virginia Whatley Smith and John Zheng Critics in this volume reassess the prescient nature of Richard Wright's mind as well as his life and body of writings especially those directly concerned with America and its racial dynamics This edited collection offers new readings and understandings of the particular America that became Wright's focus at the beginning of his career and was still prominent in his mind at the end Virginia Whatley Smith's edited collection examines Wright's fixation with America at home and from abroad his oppression by rejection of conflict with revolts against and flight from America Other people have written on Wright's revolutionary heroes his difficulties with the FBI and his works as a postcolonial provocateur but none have focused singly on his treatment of America Wherever Wright traveled he always positioned himself as an African American as he compared his experiences to those at hand However as his domestic settlements changed to international residences Wright's craftsmanship changed as well To convey his cultural message Wright created characters themes and plots that would expose arbitrary and whimsical American policies oppressive rules which would invariably ensnare Wright's protagonists and sink them more deeply into the quagmire of racial subjugation as they grasped for a fleeting moment of freedom Smith's collection brings to the fore new ways of looking at Wright particularly his post Native Son international writings Indeed no critical interrogations have considered the full significance of Wright's masterful crime fictions In addition the author's haiku poetry complements the fictional pieces addressed here reflecting Wright's attitude toward America as he near the end of his life searched for nirvana his antidote to

American racism **Fighting Corruption in Asia** John Kidd, Frank-Jürgen Richter, 2003 Fundamental changes within economies are needed to create arm's length relations between governments, corporations and banks. We are taking risks when investing in the future and risk taking demands openness and truthfulness from the agents we employ. If investors and accountants can concur on the degree of disclosure that is morally right, we may come to some global agreement on what constitutes corruption, but to do this we have to bring together those who advocate profit making with those who see this as usury, and we have to care for the future in novel ways unknown in the past so as to allow firms to be locally inefficient apparently while preserving the environment. This book looks widely at the prevailing situation in Asia and considers how little some governments are doing to guide their institutions towards probity and transparency. While fundamental changes are needed around the globe, it is in the developing nations that there is scope for radical change in the near future as their institutions are re-created to meet the modern world. Once developed and functioning, their managers will have the opportunity to facilitate and re-direct the institutions in the developed world which happen to be more conservative than their own.

Buddhist Revitalization and Chinese Religions in Malaysia Lee Tan, 2025-10-01 Buddhist Revitalization and Chinese Religions in Malaysia tells the story of how a minority community comes to grips with the challenges of modernity, history, globalization and cultural assertion in an ever-changing Malaysia. It captures the religious connection, transformation and tension within a complex traditional belief system in a multi-religious society. In particular, the book revolves around a discussion on the religious revitalization of Chinese Buddhism in modern Malaysia. This Buddhist revitalization movement is intertwined with various forces such as colonialism, religious transnationalism and global capitalism. Reformist Buddhists have helped to remake Malaysia's urban-dwelling Chinese community and have provided an exit option in the Malay and Muslim majority nation-state. As Malaysia modernizes, there have been increasing efforts by certain segments of the country's ethnic Chinese Buddhist population to separate Buddhism from popular Chinese religions. Nevertheless, these reformist groups face counterforces from traditional Chinese religionists within the context of the cultural complexity of the Chinese belief system.

China Peggy Grace Ferroa, Elaine Chan, 2002 Presents the history, geography, government, economy, environment, religion, people and social life and customs of China.

Belief Systems, Religion, and Behavioral Economics Elizabeth A. Minton, Lynn R. Kahle, 2013-12-20 Religion is a topic that businesses often ignore in spite of 70% of the world being religious. Many do not realize or resist the idea that religion is a key contributor to a consumer's core values which then contributes to consumption decisions, voting practices, reaction to pro-social messages and public policy as well as donating behavior. The field of behavioral economics discusses how various social and cognitive factors influence economic decisions which encompass consumer decision making but doesn't incorporate religion as an influence on economic decision making. This book provides one of the first comprehensive investigations into the relationship between religion and behavioral economics. The basic premises of the major religious affiliations are reviewed and the authors bring to life prior

research on religion and behavioral economics with an emphasis on how this research can help practitioners to improve business practices

British Colonialism and the Criminalization of Homosexuality Enze Han, Joseph O'Mahoney, 2018-05-03 British Colonialism and the Criminalization of Homosexuality examines whether colonial rule is responsible for the historical and continuing criminalization of same sex sexual relations in many parts of the world Enze Han and Joseph O Mahoney gather and assess historical evidence to demonstrate the different ways in which the British empire spread laws criminalizing homosexual conduct amongst its colonies Evidence includes case studies of former British colonies and the common law and criminal codes like the Indian Penal Code of 1860 and the Queensland Criminal Code of 1899 Surveying a wide range of countries the authors scrutinise whether ex British colonies are more likely to have laws that criminalize homosexual conduct than other ex colonies or other states in general They interrogate the claim that British imperialism uniquely poisoned societies against homosexuality and look at the legacies of colonialism and the politics and legal status of homosexuality across the globe

On the Emergence and Understanding of Asian Global Leadership David De Cremer, 2021-07-05 In the twenty first century it is necessary for Asia to step up and assume a larger leadership role on the global stage commensurate with its economic weight and interests Eighty eight percent of the increase in the numbers of the middle class in the next five years will take place in Asia underscoring the reality that global business and leadership will be colored in significant ways by Asian values approaches and strategies This book explores how this may impact our view and conceptual approach to the notion of global leadership The contributors to

this collection explore and examine the concept of global Asian leadership and outcome implications at the societal corporate and policy making level They argue that global leaders will increasingly focus on specific needs values and strategies that are uniquely Asian which emphasizes the reality that we most likely will have to redefine our notion of global leadership This comprehensive study of the integration of Asian and global leadership will benefit those employed in the corporate government and educational sectors as well as a broader audience with an interest in leadership policy making and economics To truly understand Asia one needs to grasp not only its cultural dimensions but also the organizational and societal contexts which provide a training ground and unique challenges and opportunities for Asian leaders In this book leading scholars share the latest thinking and scientific research on exactly these topics Highly recommended for both novices and seasoned executives and scholars Donald L Ferrin Ph D Professor of Organisational Behaviour and Human Resources Lee Kong Chian School of Business Singapore Management University While Asia s rapid economic growth has caught the attention of the world the study of the leadership engine behind the growth has been scarce This book fills the void by assembling a coherent group of insightful articles to explore and explicate how Asian business leadership is different yet also similar to Western business leadership The similarity resides in the meaning of leadership that is the capacity to influence others to achieve a common goal whereas the difference manifests in the means or styles to exert such influence With better and deeper understandings of Asian business leadership this book offers invaluable wisdom to bridge the gap between the East and West for a more prosperous future of all mankind Philip M Condit Endowed Chair Professor in Business Administration Editor in Chief of Management Insights and Incoming Editor in Chief of Management and Organization Review Department of Management and Organization Foster School of Business University of Washington
