

Guided Reading of “A Modest Proposal”

Analyzing a Single-Panel Cartoon

1. View the single-panel cartoon found on the Narrative Magazine: Literary Puzzler: Famous Last Words website: http://www.narrativemagazine.com/image_gallery/83886
2. Looking at the cartoon, what portion of it draws your attention first? What is there about this portion of the cartoon that attracts you? What details in this portion of the cartoon do you find particularly amusing?
3. What do the deer seem to have already done prior to the moment that we see them? Although realistically impossible, in what ways are these preparations amusing to you? What other situations do they remind you of?
4. Besides the two bucks sitting in the off-road vehicle, what other areas of the cartoon are lighter and also draw your attention? What's going on in that section of the cartoon that adds to the humor of the caption?
5. What more common situation is the basis of this cartoon? What encounters have you had with deer while driving at night?

Viewing an Episode of a Satiric Television Program

1. Note the title of the program and the original broadcast date of the episode.
2. What are the news items that form the basis of the segment?
3. How does the newscaster make use of visual support (sound bites of other media broadcasts, photos, or slogans, for example)? How do you know that what the newscaster is saying in some way makes fun of what the video clip shows?
4. Besides making fun of the subject matter or the personalities involved in the news, what is the overall effect of the satiric message as compared to the original intent of the message as a news item or a profile of an individual person?

Open Systems and Measurement in Relativistic Quantum Theory

Heinz-Peter Breuer,Francesco Petruccione,1999-06-21 This book treats modern aspects of open systems measurement and decoherence in relativistic quantum theory It starts with a comprehensive introduction to the problems related to measuring local and nonlocal observables and the constraints imposed by the causality principle In the articles that follow the emphasis lies on new theoretical models Quantum dynamical semigroups and stochastic processes in Hilbert space are introduced as are dynamical reduction models Further topics include relativistic generalizations of the continuous spontaneous localization model and of the quantum state diffusion model and decoherence and the dynamical selection of preferred basis sets in the framework of continuous measurement theory and of the decoherent histories approach Mathematical aspects of quantum measurement theory and dynamical entropies are also studied from the viewpoint of the operational approach to quantum mechanics

Clarissa, Or, The History of a Young Lady Samuel Richardson,2021-11-08 Clarissa Or The History of a Young Lady

Samuel Richardson Pressured by her unscrupulous family to marry a wealthy man she detests the young Clarissa Harlowe is tricked into fleeing with the witty and debonair Robert Lovelace and places herself under his protection Lovelace however proves himself to be an untrustworthy rake whose vague promises of marriage are accompanied by unwelcome and increasingly brutal sexual advances And yet Clarissa finds his charm alluring her scrupulous sense of virtue tinged with unconfessed desire Told through a complex series of interweaving letters Clarissa is a richly ambiguous study of a fatally attracted couple and a work of astonishing power and immediacy A huge success when it first appeared in 1747 and translated into French and German it remains one of the greatest of all European novels Its rich ambiguities our sense of Clarissa s scrupulous virtue tinged with intimations of her capacity for self deception in matters of sex the wicked and amusing faces of Lovelace who must be easily the most charming villain in English literature give the story extraordinary psychological momentum

The Parliamentary Debates (official Report). Great Britain. Parliament. House of Commons,1912
