studied in many different ways each generating distinctive kinds of insight and understanding This book is for those who study political economy as well as economic theory and philosophy *From Corporate Globalization to Global Co-operation* Tom Webb,2016-10-20T00:00:00Z This book is about the need for an alternative to capitalism But what does that alternative look like And given the ever increasing wealth and power of the 1 percent and the fact that corporations are given carte blanche to turn natural resources into profit is an alternative possible Tom Webb argues that a massive shift to social enterprise primarily co operatives is required More than 250 million people around the world work for co operatives and co operatives impact the lives of three billion people This model reduces almost every negative impact of capitalism it is a model that works Webb outlines the principles co operatives need to hold to if they are to be a successful alternative to capitalism and examines the public policy changes needed to nurture such a transition but he remains neither wildly optimistic nor unduly pessimistic A better world is possible but it is not inevitable **Building a Moral Economy** Cynthia D.
