Autistic Thinking--this is the Title Peter Vermeulen,2001 To understand the ways people with autism think Peter Vermeulen argues we need to try to get inside their world The latest scientific thinking is clearly explained and illustrated by numerous personal accounts This introductory book offers the reader a real window into the autistic mind and the very individual way in which it processes information Honest and accessible this book will be invaluable to anyone involved in the care of an autistic child *Autism and The Predictive Brain* Peter Vermeulen,2022-10-26 What if our previous teachings and beliefs regarding processing stimuli reading emotions and understanding human behaviour is all untrue In this book Peter Vermeulen investigates new findings on the predictive brain and what these insights mean for autism and current interventions Recent research has shown that the classic ideas about how the human brain first needs to process incoming information about the world before it can react are no longer tenable Rather to survive in the volatile uncertain complex and ambiguous environment of modern society what we need is a brain that predicts the world quickly and unconsciously while taking proper account of the context This book explains the new theories relating to the predictive brain summarising some of the more recent highly technical research studies about the predictive mind and autism into as accessible and understandable language as possible Shedding new light on the predictive brain and its relation to autism the chapters lead readers to the inevitable conclusion that many of the current interventions used in connection with autism urgently need updating and outline possibilities for revising This approachable book synthesises advanced research for professionals across disciplines working with people with autism spectrum disorder along with readers who have or have family members with ASD *Invisible Differences: A Story of Autism, Adulthood, and Living Life in Full Color* Julie Dachez,2025-09-10 Translated for the very first time in English and available now in softcover Invisible Differences is the deeply moving and intimate story of what it s like to live day to day with Autism Spectrum Disorder Marguerite feels awkward struggling every day to stay productive at work and keep up appearances with friends She s sensitive even irritable at times She makes her environment a fluffy comforting cocoon alienating her boyfriend The everyday noise and stimuli assaults her senses the constant chatter of her coworkers working her last nerve Then when one big fight with her boyfriend finds her frustrated and dejected Marguerite finally investigates the root of her discomfort After a journey of tough conversations with her loved ones doctors and the internet she discovers that she has Autism Spectrum Disorder As a result her life is profoundly changed for the better *The Little Class with the Big Personality* Fran Hunnisett,2005-01-15 This book is an honest account of the day to day challenges faced by the teacher of seven autistic children The author s creative accessible approach invites the reader to look beyond the stereotypes of mainstream schooling and explore the experience of teaching a lively group of children with autism *The Imprinted Brain* Christopher Badcock,2009-05-15 Badcock sets out a radical new theory of the mind based on the recent discovery of genomic imprinting He uses psychiatric case material to show how many of the symptoms of

psychosis can be shown to be the mental mirror images of those of autism This new theory casts intriguing new light on topics such as the nature of genius *Communication Issues in Autism and Asperger Syndrome* Ol'ga Bogdashina,2005 Providing a theoretical foundation for understanding communication and language impairments specific to autism Olga Bogdashina explores the effects of different perceptual and cognitive styles on the communication and language development of autistic children She stresses the importance of identifying each autistic individual s nonverbal language which can be visual tactile kinaesthetic auditory olfactory or gustatory with a view to establish a shared means of verbal communication She offers an explanation of why certain approaches for example PECS might work with some autistic children but not others Offering real insights the What They Say sections enable the reader to see through the eyes of autistic individuals and to understand their language differences first hand What We Can Do to Help sections throughout the book give practical recommendations on what to do in order to help autistic individuals use their natural mechanisms to learn and develop social and communicative skills The final chapters are devoted to assessment and intervention issues with practical recommendations for selecting appropriate methods and techniques to enhance communication based on the specific mode of communication a person uses *Autism Through A Sensory Lens* Joy Beaney,2020-08-10 The fully revised second edition of this easy to use resource introduces the sensory differences autistic children may face and explores how these differences can affect their ability to make sense of the world It is invaluable in helping those adults working with autistic children to identify the possible triggers for the child s behaviour and consider it through a sensory lens Children have varying sensory needs so the book offers both a wealth of enjoyable activities for sensory exploration and play whilst also providing suggestions for strategies and ideas that can be used at home or in school to create an autism friendly environment This book Highlights the possible link between behaviours that challenge and sensory difficulties for autistic children Provides practical and accessible resources helping parents carers and practitioners to gain a greater understanding of sensory differences Includes an online assessment with accompanying aids to create a visual representation of the child s sensory needs With both downloadable and photocopiable resources this practical guide will be an essential tool for parents carers and practitioners working with autistic children enabling them to to create a visual profile of areas of difficulty which can form the basis of personalised strategies and fun sensory activities to support the child **Understanding and Working with the Spectrum of Autism** Wendy Lawson,2001-03-15 To many of the people the processes by which those with autism make sense of the world around them may seem mysterious In this book Lawson demonstrates these processes using comparisons from the non ASD world to help professionals families and carers to relate to and communicate with people with ASD better **Video Interaction Guidance** Miriam Landor,Liz Todd,Hilary Kennedy,2011-08-15 Bringing together contributions from researchers and practitioners this book provides a definitive introduction to Video Interaction Guidance The approach is discussed from a range of theoretical perspectives and within the contexts of narrative therapy infant and attachment

interventions positive psychology and mindfulness

Enabling Communication in Children with Autism Carol

Potter,Chris Whittaker,2001 Addressing the complex issue of what constitutes a communication enabling environment for children with autism who use little or no speech Potter and Whittaker show that the communication of these children can be significantly affected by a range of social and environmental influences As well as providing an overview of the theoretical issues involved Enabling Communication in Children with Autism provides detailed practical advice Key elements of the recommended approach include the use of minimal speech proximal communication the use of appropriate systems of communication including multipointing providing many and varied opportunities for communication Arguing that encouraging spontaneous communication should be viewed as a major educational goal for these children Potter and Whittaker demonstrate that these children can and do communicate in enabling environments and provide practical proven strategies for creating such environments
