Vincent Bugliosi Author of *Outrage* Round-about New York A. W. Schlesinger, 1902 *Working Mother*, 1988-04 The magazine that helps career moms balance their personal and professional lives **Hearings held at Washington, D.C., June 30-Aug. 11 and at New York, N.Y., July 7-9, 1948** United States. Congress. House. Committee on Education and Labor. Special Subcommittee to Investigate Communism in New York City Distributive Trades, 1948 **Earning Power** Eileen Wallis, 2010-03-01 The half century between 1880 and 1930 saw rampant growth in many American cities and an equally rapid movement of women into the work force In Los Angeles the city not only grew from a dusty cow town to a major American metropolis but also offered its residents myriad new opportunities and challenges *Earning Power* examines the role that women played in this growth as they attempted to make their financial way in a rapidly changing world Los Angeles during these years was one of the most ethnically diverse and gender balanced American cities Moreover its accelerated urban growth generated a great deal of economic social and political instability In *Earning Power* author Eileen V Wallis examines how women negotiated issues of gender race ethnicity and class to gain access to professions and skilled work in Los Angeles She also discusses the contributions they made to the region's history as political and social players employers and employees and as members of families Wallis reveals how the lives of women in the urban West differed in many ways from those of their sisters in more established eastern cities She finds that the experiences of women workers force us to reconsider many assumptions about the nature of Los Angeles's economy as well as about the ways women participated in it The book also considers how Angelenos responded to the larger national social debate about women's work and the ways that American society would have to change in order to accommodate working women *Earning Power* is a major contribution to our understanding of labor in the urban West during this transformative period and of the crucial role that women played in shaping western cities economies society and politics **Service Breakthroughs** James L. Heskett, 1990-09-17 Discover the game changing strategies of Service Breakthroughs where Harvard Business School experts unveil innovative service management techniques breakthrough leadership insights and the self reinforcing service cycle to elevate customer satisfaction retention and profitability in competitive industries What Do Citicorp UPS and Marriott have in common They are breakthrough service providers firms that changed the rules of the game in their respective industries by consistently meeting or exceeding customer needs and expectations To find out how these companies do it service management experts James Heskett Earl Sasser and Christopher Hart put the question to the chief executive officers of fifteen of America's leading service firms attending a workshop at the Harvard Business School Breakthrough leaders they discovered think very differently about their businesses than their competitors Now in *Service Breakthroughs* based upon five years of exhaustive

research in fourteen service industries Heskett Sasser and Hart show exactly what enables one or two companies in each industry to constantly set new standards for quality and value that force competitors to adapt or fail At the heart of breakthrough performance the authors contend is a sometimes intuitive but thorough understanding of the self reinforcing service cycle that replaces traditional management of trade offs The cycle is a paradigm derived from the research results suggesting direct links between heightened customer satisfaction increased customer retention augmented sales and profit improved quality and productivity greater service value per unit of cost improved satisfaction of service providers increased employee retention and further heightened customer satisfaction With detailed examples and dramatic case studies of Mark Twain Bancshares American Airlines Florida Power and Light Federal Express McDonald s and many other companies Heskett Sasser and Hart show how this self reinforcing cycle of behavior differentiates breakthrough leaders from their merely good competitors The authors describe how breakthrough managers develop counterintuitive even contrarian strategic service visions These companies define their service concept in terms of results achieved for customers rather than services performed They target market segments by focusing on psychographics how customers think and behave instead of demographics And instead of viewing a service delivery system as a facility where the service is produced and sold breakthrough firms see it as an opportunity to enhance the quality of the service These profound differences in thought and action have brought spectacular results For managers who wish to set the pace in their service industries Service Breakthroughs is essential reading
