You Can't Air That David S. Silverman, 2022-09-01 Broadcast television's presentation of controversial material to a mainstream American audience is no less an issue today than it was in the 1940s Programming content has always been a product of the interests and motives of network executives advertisers and regulatory agencies In this illuminating book David S Silverman assesses four controversial television series from the perspective of media history examining the censorship present at all networks and the political and intellectual inertia it produces in broadcast television Beginning with The Smothers Brothers Comedy Hour from the sixties the author analyzes the split between the comic team and CBS over remarks they made on the Vietnam War and religion He also examines The Richard Pryor Show of the seventies which raised strong questions about network meddling over racial issues Among recent
