Shakespeare's Hand Jonathan Goldberg, 2003 Over the past fifteen years Jonathan Goldberg s wide ranging essays have been among the most sophisticated influential and controversial writing about Shakespeare He challenges the critical orthodoxy provoking scholars to reassess both their own assumptions and those underpinning the field of Shakespeare studies Collected in one volume for the first time these essays offer a sustained energetic and rigorous examination of issues of gender and sexuality that pervade Shakespeare's plays as well as a road map of the shifts during the past two decades in our understanding of English literature s most canonical figure Central to these essays are concerns about textuality as considered from a number of vantage points including deconstructionist psychoanalytic and historicist Goldberg studies most of Shakespeare's plays giving particular emphasis to Henry IV Parts 1 and 2 and to Romeo and Juliet he focuses throughout on the relationship between the text as material object and the reality created or reflected by that text Among the issues he considers are the textual instability of Shakespeare's plays and the historical instabilities of gender and sexuality depicted in those plays the construction of gender and the dehumanization implicit in treating characters as a textual production the function of letters and other documents within the Shakespearean texts and the correlation of sexual politics and textual desire Tracing a path from characters in the scriptive sense to their embodiment in characters marked by gender and sexuality Shakespeare's Hand provides a brilliant set of inquiries into the production critical reception and conditions of Shakespearean texts Voice Terminal Echo (Routledge Revivals) Jonathan Goldberg, 2014-10-10 First published in 1986 this title examines a set of English Renaissance texts by Shakespeare Spenser Herbert Marvell and Milton within the theoretic framework of postmodern thought Following an opening chapter that argues for the value of this conjunction as a way of understanding literary history subsequent chapters draw upon Jacques Derrida's deconstruction of photocentrism and Jacques Lacan's analysis of the agency of the letter to offer fully theorized readings Throughout there is a sustained concern with the transformations of such Ovidian figures as Narcissus and Echo Perseus and Medusa Orpheus and Eurydice and with the echo effects of Virgilian pastoral as paradigms for the interplay of voice and writing The Bible Doctrine of Grace C. Ryder Smith, 2009-11-01 In this volume Dr Ryder Smith continues his series of studies in great Bible doctrines Its main subject is Grace and he examines afresh the meaning and use of such terms as chesed in the Old Testament and charis in the New not forgetting the Septuagint But there are chapters also on doctrines closely related to Grace under such titles as Trial Temptation and Discipline Election and The Fellowship of God with Man in Christ In his chapters on Righteousness in Sinners and Sin in Believers he maintains that the full Christian doctrine is nowhere drawn out in the New Testament but that it may be deduced from scattered references In his discussion of Sin in Believers he claims that Paul taught what some may consider a heresy namely that in what may be called conversion baptism a believer was wholly cleansed from sin In many ways this volume is complementary to Dr Smith s last volume The Bible Doctrine of Sin and like all his work it is the

fruit of sound knowledge deep scholarship and penetrating insight Our Mothers, Our Powers, Our Texts Teresa N. Washington, 2005-06-27 Washington writes supple and thoughtful prose and creatively integrates African and African derived terminology which never distract the reader I consider Our Mothers Our Powers Our Texts not only a brilliant study but also a model to be emulated Ousseynou B Traore William Patterson University j is a Yoruba word that signifies a spiritual power of vast potential as well as the human beings who exercise that power Although both men and women can have j its owners and controllers are women the literal and cosmic Mothers who are revered as the gods of society Because of its association with female power its invisibility and profundity j is often misconstrued as witchcraft However as Teresa N Washington points out in Our Mothers Our Powers Our Texts j is central to the Yoruba ethos and cosmology Not only does it underpin the concepts of creation and creativity but as a force of justice and retribution j is essential to social harmony and balance As Africans were forced into exile and enslavement they took j with them and continued its work of creating destroying harming and healing in the New World Washington seeks out j s subversive power of creation and re creation in a diverse range of Africana texts from both men and women from both oral and contemporary literature and across space and time She guides readers to an understanding of the symbolic methodological and spiritual issues that are central to important works by Africana writers but are rarely elucidated by Western criticism She begins with an examination of the ancient forms of j in Yoruba culture which creates a framework for innovative readings of important works by Africana writers including Zora Neale Hurston Toni Morrison Ben Okri Wole Soyinka Jamaica Kincaid and Ntozake Shange This rich analysis will appeal to readers of Africana literature African religion and philosophy feminist studies and comparative literature Re-forming the Past A. Timothy Spaulding, 2005 The slave experience was a defining one in American history and not surprisingly has been a significant and powerful trope in African American literature In Re Forming the Past A Timothy Spaulding examines contemporary revisions of slave narratives that use elements of the fantastic to redefine the historical and literary constructions of American slavery In their rejection of mimetic representation and traditional historiography postmodern slave narratives such as Ishmael Reed s Flight to Canada Octavia Butler s Kindred Toni Morrison s Beloved Charles Johnson s Ox Herding Tale and Middle Passage Jewelle Gomez s The Gilda Stories and Samuel Delaney s Stars in My Pocket like Grains of Sand set out to counter the usual slave narrative s reliance on realism and objectivity by creating alternative histories based on subjective fantastic and non realistic representations of slavery As these texts critique traditional conceptions of history identity and aesthetic form they simultaneously re invest these concepts with a political agency that harkens back to the original project of the 19th century slave narratives In their rejection of mimetic representation and traditional historiography Spaulding contextualizes postmodern slave narrative By addressing both literary and popular African American texts Re Forming the Past expands discussions of both the African American literary tradition and postmodern culture <u>Great Couples of the Bible</u> Dorothee Soelle, Katharina Elliger, Noted couples of the Bible are explored in this

oversized fascinating and informative volume lavishly illustrated with 200 full color reproductions from classic chiefly Western art sources Fugitive Time Matthew Omelsky, 2023-11-03 In Fugitive Time Matthew Omelsky theorizes the embodied experience of time in twentieth and twenty first century black artforms from across the world Through the lens of time he charts the sensations and coursing thoughts that accompany desires for freedom as they appear in the work of artists as varied as Toni Morrison Yvonne Vera Aim C saire and Issa Samb Fugitive time names a distinct utopian desire directed at the anticipated moment when the body and mind have been unburdened of the violence that has consumed black life globally for centuries bringing with it a new form of being Omelsky shows how fugitive time is not about attaining this transcendent release but is instead about sustaining the idea of it as an ecstatic social gathering From the desire for ethereal queer worlds in the Black Audio Film Collective's Twilight City to Sun Ra's transformation of nineteenth century scientific racism into an insurgent fugitive aesthetic Omelsky shows how fugitive time evolves and how it remains a dominant form of imagining freedom in global black cultural expression The Meshalim in the Mekhiltot Lieve M. Teugels, 2019-04-09 This edition of rabbinic parables meshalim in the two Mekhiltot the tannaitic Midrashim to the book of Exodus 3rd century CE has a double scholarly purpose It offers a critical synoptic presentation and study of the textual witnesses of the parables and a commentary on their meaning and function in their literary and historical context Moreover a new English translation of every parable will make the edition a useful tool for interested readers with less knowledge of Hebrew or those merely looking for a quick reference This edition which intends to be the first in a series of editions of parables in all the tannaitic works is an indispensable tool not only for scholars of Jewish texts but also for students of the New Testament and early Christian literature historians of religion in late Antiquity and those interested in similar literary genres such as fables
