

Benjamin Specht

Elizabeth Millán Brusslan

Benjamin Specht:

State of New York Supreme Court , Romantic Prose Fiction Gerald Ernest Paul Gillespie, Manfred

Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the

whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age The Theater of Electricity Ulf

Otto,2023-06-29 Since the 1880s electrical energies started circulating in European theaters generated from fossil fuels in urban power plants A mysterious force which was still traded as romantic life force by some and for others had already come to stand in for progress entered performance venues Engineering knowledge control techniques and supply chains changed fundamentally how theater was made and thought of The mechanical image machine from Renaissance and Baroque times was transformed into a thermodynamic engine Modern theater turned out to be electrified theater Retracing what happened backstage before the Avantgarde took to the front stage this book proposes to write the genealogy of theaters modernity as a cultural history of theater technology Myth in the Modern Novel Liisa Steinby,2023-03-20 Myth in the Modern Novel

Imagining the Absolute posits a twofold thesis First although Modernity is regarded as an era dominated by science and rational thought it has in fact not relinquished the hold of myth a more primitive form of thought which is difficult to reconcile with modern rationality Second some of the most important statements as to the reconcilability of myth and Modernity are found in the work of certain prominent novelists This book offers a close examination of the work of eleven writers from the late eighteenth century to the beginning of the twenty first representing German French American Czech and Swedish literature The analyses of individual novels reveal a variety of intriguing views of myth in Modernity and offer an insight into the modernizing transformations myth has undergone when applied in the modern novel The study shows the presence of the subconscious the mythic layer in modern western culture and how this has been dealt with in novelistic literature Demystifying Bilingualism Silke Jansen,Sonja Higuera del Moral,Jessica Stefanie Barzen,Pia Reimann,Markus

Opolka,2021-12-02 This book analyses changing views on bilingualism in Cognitive Psychology and explores their socio cultural embeddedness It offers a new innovative perspective on the debate on possible cognitive disadvantages in bilinguals arguing that it is biased by popular language myths which often manifest themselves in the form of metaphors Since its beginnings Cognitive Psychology has consistently modelled the coexistence between languages in the brain using metaphors of struggle conflict and competition However an ideological shift from nationalist and monolingual ideologies to the celebration of bilingualism under multicultural and neoliberal ideologies in the course of the 20th century fostered opposing interpretations of language coexistence in the brain and its effects on bilinguals at different moments in time This book will be of interest to students and scholars of Cognitive Psychology Psycholinguistics Multilingualism and Applied Linguistics Cognitive and Computational Linguistics and Critical Metaphor Analysis Transplanting the Metaphysical Organ Leif Weatherby,2016-03-01 Around 1800 German romanticism developed a philosophy this study calls Romantic organology Scientific and philosophical notions of biological function and speculative thought converged to form the discourse that Transplanting the Metaphysical Organ reconstructs a metaphysics meant to theorize and ultimately alter the structure of a

politically and scientifically destabilized world

Physics and Literature Aura Heydenreich, Klaus Mecke, 2021-12-20

Physics and Literature is a unique collaboration between physicists literary scholars and philosophers the first collection of essays to examine together how science and literature beneath their practical differences share core dimensions forms of questioning thinking discovering and communicating insights This book advances an in depth exploration of relations between physics and literature from both perspectives It turns around the tendency to discuss relations between literature and science in one sided and polarizing ways The collection is the result of the inaugural conference of ELINAS the Erlangen Center for Literature and Natural Science an initiative dedicated to building bridges between literary and scientific research ELINAS revitalizes discussion of science literature interconnections with new topics ideas and angles by organizing genuine dialogue among participants across disciplinary lines The essays explore how scientific thought and practices are conditioned by narrative and genre fiction models and metaphors and how science in turn feeds into the meaning making of literary and philosophical texts These interdisciplinary encounters enrich reflections on epistemology cognition and aesthetics

The Palgrave Handbook of German Romantic Philosophy Elizabeth Millán Brusslan, 2020-12-15 This Handbook provides a comprehensive and authoritative analysis of the philosophical dimensions of German Romanticism a movement that challenged traditional borders between philosophy poetry and science With contributions from leading international scholars the collection places the movement in its historical context by both exploring its links to German Idealism and by examining contemporary related developments in aesthetics and scientific research A substantial concluding section of the Handbook examines the enduring legacy of German romantic philosophy Key Features Highlights the contributions of German romantic philosophy to literary criticism irony cinema religion and biology Emphasises the important role that women played in the movement s formation Reveals the ways in which German romantic philosophy impacted developments in modernism existentialism and critical theory in the twentieth century Interdisciplinary in approach with contributions from philosophers Germanists historians and literary scholars Providing both broad perspectives and new insights this Handbook is essential reading for scholars undertaking new research on German romantic philosophy as well as for advanced students requiring a thorough understanding of the subject

A Concise Companion to World Literature Ken Seigneurie, Paula

Karger, 2025-12-22 Provides a student friendly introduction to World Literature Bridging the gap between introductory materials and advanced scholarly research the Concise Companion to World Literature offers a streamlined selection of the most popular and essential essays from The Companion to World Literature specifically tailored for undergraduate students and instructors This single volume resource edited by Ken Seigneurie and Paula Karger presents 100 carefully curated chapters fully revised for clarity and accompanied by newly commissioned essays The Concise Companion which retains the original work s three tiered organizational structure period essays thematic bridge essays and author title chapters offers a nuanced exploration of major literary traditions across time and geography Each entry contextualizes major literary works

within the broader framework of global literary traditions enriching discussions on periodization literary movements and cross cultural connections With its accessible scholarship and enhanced learning tools it is a vital resource for students beginning their journey in World Literature and for educators seeking a structured easy to use reference Providing an engaging approach to the vast landscape of global literary traditions the Concise Companion to World Literature Features an entirely new introductory section that offers contemporary perspectives on World Literature Showcases a diverse array of global texts authors and traditions to deliver a broad and inclusive literary perspective Addresses key debates in World Literature including periodization cross cultural exchange and literary historiography Includes a new pedagogical supplement to assist instructors in course design and aid students in literary analysis The Concise Companion to World Literature designed for second and third year undergraduate students is an essential resource for courses in World Literature Comparative Literature and Humanities programs It is also a valuable tool for graduate students and faculty seeking an authoritative and easy to use reference for teaching and research in the field

Canon Constitution and Canon Change in Children's Literature Bettina Kümmerling-Meibauer, Anja Müller, 2016-12-01 This volume focuses on the de canonization processes in children's literature considering the construction and cultural historical changes of canons in different children's literatures Chapters by international experts in the field explore a wide range of different children's literatures from Great Britain Germany Scandinavia the Low Countries Eastern and Central Europe as well as from Non European countries such as Australia Israel and the United States Situating the inquiry within larger literary and cultural studies conversations about canonicity the contributors assess representative authors and works that have encountered changing fates in the course of canon history Particular emphasis is given to sociological canon theories which have so far been under represented in canon research in children's literature The volume therefore relates historical changes in the canon of children's literature not only to historical changes in concepts of childhood but to more encompassing political social economic cultural and ideological shifts This volume's comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation This book thus renders evident the structural similarities between patterns and strategies of canon formation emerging in different children's literatures

Adopting the Beat of Appearance: An Psychological Symphony within **Benjamin Specht**

In a world used by monitors and the ceaseless chatter of fast interaction, the melodic elegance and emotional symphony produced by the prepared word frequently fade in to the back ground, eclipsed by the persistent sound and interruptions that permeate our lives. However, located within the pages of **Benjamin Specht** a wonderful literary value filled with raw emotions, lies an immersive symphony waiting to be embraced. Constructed by a wonderful musician of language, that fascinating masterpiece conducts visitors on a psychological journey, skillfully unraveling the concealed songs and profound influence resonating within each cautiously crafted phrase. Within the depths of this emotional assessment, we shall discover the book is main harmonies, analyze its enthralling publishing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
