

Beowulf

Beowulf is to England what Homer's *Iliad* (see page 67) and *Odyssey* are to ancient Greece: It is the first great work of the English national literature—the mythical and literary record of a formative stage of English civilization. It is also an epic of the heroic sources of English culture. As such, *Beowulf* uses a host of traditional **motifs**, or recurring elements, associated with heroic literature all over the world.

The epic tells of Beowulf (his name may mean “bear”), a Geat from Sweden who crosses the sea to Denmark in a quest to rescue King Hrothgar’s people from the demonic monster Grendel. Like most early heroic literature, *Beowulf* is an oral epic. It was handed down, with changes and embellishments, from one minstrel to another. The stories of *Beowulf*, like those of all oral epics, are traditional, familiar to the audiences who crowded around the harpist-bards in the communal halls at night. They are the stories of dream and legend, archetypal tales of monsters and god-fashioned weapons, of descents to the underworld and fights with dragons, of the hero’s quest and a community threatened by the powers of evil.

The Sources of *Beowulf*

By the standards of Homer, whose epics run to nearly 15,000 lines, *Beowulf* is short—approximately 3,200 lines. It was composed in Old English, probably in Northumbria, in northeastern England, sometime between 700 and 750. The world it depicts, however, is much older, that of the early sixth century. Much of the poem’s material is based on early folk legends—some Celtic, some Scandinavian. Since the scenery described is the coast of Northumbria, not Scandinavia, it has been assumed that the poet who wrote the version that has come down to us was Northumbrian. Given the Christian elements in the epic, it is thought that this poet may have been a monk.

The only manuscript of *Beowulf* we have dates from the year 1000 and is now in the British Museum in London. Burned and stained, it was discovered in the eighteenth century: Somehow it had survived Henry VIII’s destruction of the monasteries two hundred years earlier.

The Translations of *Beowulf* Part One of the text you are about to read is from Burton Raffel’s popular 1963 translation of the epic. Part Two is from the Irish poet Seamus Heaney’s award-winning, bestselling translation of the work, published in 2000.

People, Monsters, and Places

Beowulf: a Geat, son of Ecgtheow (Ecgtheow) and nephew of Higlac (Hygelac), king of the Geats.

Grendel: man-eating monster who lives at the bottom of a foul mere, or mountain lake. His name might be related to the Old Norse *grindill*, meaning “storm,” or *grenja*, “bellow.”

Herot: golden guest hall built by King Hrothgar, the Danish ruler. It was decorated with the antlers of stags; the name means “hart [stag] hall.” Scholars think Herot might have been built near Lejre on the coast of Zealand, in Denmark.

Hrothgar: king of the Danes, builder of Herot. He had once befriended Beowulf’s father. His father was called Healfdane (which probably means “half Dane”).

Wiglaf: a Geat warrior, one of Beowulf’s select band and the only one to help him in his final fight.

This is a story about a hero from the misty reaches of the British past, a hero who faces violence, horror, and even death to save a people in mortal danger. The epic’s events took place many centuries ago, but this story still speaks to people today, perhaps because so many of us are in need of a rescuer, a hero. Take a moment to write about a
