Sorrows: Let's Talk About Abortion, Reproductive Technologies, and Adoption Katherine Breckenridge,2024-05-15

Today s self indulgent society is one in which satisfying one s desires at the expense of others prevails This mindset is particularly common in areas of procreation such as abortion and various assisted reproductive technologies Through a lens that combines Christianity natural law and scientific reason this book discusses how the breakdown of man woman marriage biological connection the destruction and disregard for human life and the objectification and commodification of women and children manufactures trauma in not only adults but in children This trauma is evidenced by the stories of adult children who are victims of society s current cultural trends as well as evidenced by the research of various psychologists sociologists and other professionals For too long adults have been asking children to conform to their ways of living assuming children will just get over it and children are now starting to speak out about the harms of their upbringings It s essential to illuminate their voices as these familial breakdowns have become so normal that we currently can t talk about any of their negative aspects with any degree of common sense **Genetic Ties and the Family** Mark A.
