

UNDERSTANDING **ZONE 4** TRAINING

Precision Approach to Training Zones

INSCYD elevates traditional training zones by integrating comprehensive physiological data, offering a more precise and customized approach to training.

Customized Zones: Tailored training plans based on detailed physiological metrics.

Physiological Data Integration: Includes $\dot{V}O_{2\max}$, carbohydrate and fat combustion rates, aerobic vs anaerobic energy contributions, lactate concentrations, and other in a certain training zone.

Athlete Insights: Gain deeper understanding of each athlete's unique physiology, from energy systems to lactate dynamics.

What is zone 4 training?

Zone 4 is a hard exercise intensity, but not maximal effort.

Also known as Threshold Training.

90-105% of anaerobic threshold or Functional Threshold Power (FTP).

95-105% of threshold heart rate or 80-90% of maximal heart rate.

Heart rate reaches Zone 4 levels after 1-2 minutes of exercise.

Breakthrough Training In The Zone:

Breakthrough Zone Roy Langmaid, Mac Andrews, 2004-11-19 A breakthrough is a discontinuous change that makes new things possible and takes performance in a market to a new level This book is about creating breakthroughs in large organizations where so much energy is often committed to existing activity Drawing on their wide experience of working with top companies including British Airways BUPA and Carphone Warehouse Ray Langmaid and Mac Andrews argue that it is customers themselves who are best placed to conceive great new products and services but that they will need time and trust to work out how these might best be created Traditional ways of talking to customers such as focus groups lack honesty and place perceptual barriers what is needed is a new approach that is open honest and ongoing The solution is the Breakthrough Zone a creative meeting of customer and executives in which desires are unlocked and needs identified Versatile enough to be used with groups of any size this process is built on personal relationships and proven to generate really innovative ideas for brand extensions and product development Provides the tools and techniques to enable you to get closer to your customers a step by step guide shows you how to implement the Breakthrough Zone process Explores why this type of communication is so much more effective than focus groups or traditional database driven approaches to engaging in customer dialogue Previous innovations generated in the Breakthrough Zone include BA's Beds for Business BT's It's Good to Talk and new market strategies for VISA and Dell

Going Long Joe Friel, Byrn, 2013-09-13 Internationally recognized triathlon coach and best selling author Joe Friel teams up with ultra endurance guru Gordon Byrn in Going Long the most comprehensive guide to racing long course and Ironman distance triathlons Combining science with personal experience Friel and Byrn prepare anyone from the working age grouper to the podium contender for success in triathlon's ultimate endurance event Whether you are preparing for your first long course triathlon or your fastest Going Long will make every hour of training count 40 sport specific drills to improve technique and efficiency Updates to mental training Key training sessions workout examples and strength building exercises A simple approach to balancing training work and family obligations A new chapter on active recovery injury prevention and treatment Going Long is the best selling book on Ironman training Friel and Byrn guide the novice intermediate and elite triathlete making it the most comprehensive and nuanced plan for Ironman training ever written Going Long is the best resource to break through an Ironman performance plateau to find season after season of long course race improvements

Free Speed Paul Eaglestone, 2025-05-01 Free Speed is coach Paul Eaglestone's breakthrough training method that combines efficient swimming technique with a pace setting formula to achieve faster triathlons The idea behind Paul's innovative training system is loosely based on ultra short race pace training but with fewer sets and maintaining effort levels rather than working at constant maximum effort By measuring efficiency through stroke count against time specific goals and with Paul's swimming technique including better muscle performance the triathlete is able to preserve energy for the cycling and running legs of the triathlon without sacrificing pace in the water

In the book Paul explains how to train and practice using the best swim technique and how to improve pace over short distances using his 17 20 method before progressing to race distance as well as every other aspect of triathlon swimming basic equipment race planning open water swimming starts and turns and more His method brings a cycling mentality to swimming through hydrodynamics attention to detail and marginal gains through mental training The readers are also given the tools to design their own training sessions based on their own specific goals and targets and always with an eye on getting the most out of each session Swim faster triathlons with Free Speed
