Advances In Sociophonetics Studies In Language Variation:

Advances in Sociophonetics Chiara Celata, Silvia Calamai, 2014-06-15 Sociophonetics is a privileged domain for the investigation of language variation and change By combining theoretical reflections and sophisticated techniques of analysis both phonetic and statistical it is possible to extrapolate the role of individual factors socio cultural physiological communicative interactional etc in the multidimensional space of speech variation This book investigates the fundamental relationship between speech variation and the social background of speakers from articulatory acoustic dialectological and conversational perspectives thus breaking new ground with respect to classical variationist and dialectological studies Specialists from a broad range of disciplines including phonetics phonology sociolinguistics psycholinguistics and cognitive linguistics will find innovative suggestions for multiple approaches to language variation Although presuming some basic knowledge of experimental phonetics and sociolinguistics the book is addressed to all readers with an interest in speech and language variation mechanisms in social interaction

Recent Advances in the Study of Spanish Sociophonetic Perception Whitney Chappell, 2019-11-15 This book provides a cutting edge exploration of the social meaning of phonetic variation in the Spanish speaking world Its 11 chapters elucidate the ways in which listeners process perceive and propagate phonetically motivated social meaning across monolingual and contact varieties including the Spanish spoken in Spain Asturias Catalonia and Andalusia Ecuador Colombia Argentina Chile Mexico and the United States The book presents a wide variety of new and innovative research by renowned scholars and the chapters examine issues like the influence of visual cues bilingualism contact geographic mobility and phonotactic predictability on social and linguistic perception Additionally the volume engages in timely discussions of intersectionality replicability and the future of the field As the first unified reference on Spanish sociophonetic perception this volume will be useful in graduate and undergraduate classrooms in libraries and on the bookshelf of any scholar interested in Spanish sociophonetics

The Routledge Handbook of Phonetics William F. Katz, Peter F. Assmann, 2019-03-15 The Routledge Handbook of Phonetics provides a comprehensive and up to date compilation of research history and techniques in phonetics With contributions from 41 prominent authors from North America Europe Australia and Japan and including over 130 figures to illustrate key points this handbook covers all the most important areas in the field including the history and scope of techniques used including speech synthesis vocal tract imaging techniques and obtaining information on under researched languages from language archives the physiological bases of speech and hearing including auditory articulatory and neural explanations of hearing speech and language processes theories and models of speech perception and production related to the processing of consonants vowels prosody tone and intonation linguistic phonetics with discussions of the phonetics phonology interface sound change second language acquisition sociophonetics and second language teaching research applications and extensions including phonetics and gender clinical phonetics and forensic phonetics The Routledge Handbook of Phonetics will be indispensable reading for

students and practitioners in the fields of speech language linguistics and hearing sciences **English in the Indian Diaspora** Marianne Hundt, Devyani Sharma, 2014-08-15 Diasporic populations offer unique opportunities for the study of language variation and change This volume is the first collection of sociolinguistic studies of English use across the historically complex and widely dispersed Indian diaspora The contributions describe particular sociohistorical contexts the UK Fiji South Africa Singapore and the Caribbean and then use this rich empirical base to examine diverse questions in theory and method such as the extent to which different settings see different or similar linguistic outcomes the role of community structures transnational ties attitudes and identity reasons for differing rates of change adaptation and focussing and the relevance of endonormative stabilization of Asian Englishes These themes do not simply further our understandings of diaspora They can ultimately feed into wider theoretical questions in language contact studies including universals selection and adaptation of traits and interactions between social contact identity and language change The Routledge Handbook of Sociophonetics Christopher Strelluf, 2023-10-31 The Routledge Handbook of Sociophonetics is the definitive guide to sociophonetics Offering a practical and accessible survey of an unparalleled range of theoretical and methodological perspectives this is the first handbook devoted to sociophonetic research and applications of sociophonetics within and beyond linguistics It defines what sociophonetics is as a field and offers views of what sociophonetics might become Split into three sections this book examines the suprasegmental segmental and subsegmental units that sociophoneticians study reveals the ways that sociophoneticians create knowledge and solve problems across a range of theoretical and practical applications explores sociophonetic traditions around the world in spoken and signed languages includes case studies that demonstrate sociophonetic research in action which will support and inspire readers to conduct their own projects This handbook is an indispensable resource for researchers undergraduate and graduate students in sociophonetics as well as researchers and students in sociolinguistics phonetics phonology language variation and change cognitive linguistics psycholinguistics speech pathology and language teaching and indeed any area of study where phonetics and phonology interact with social factors and forces Sociophonetics Tyler Kendall, Valerie Fridland, 2021-03-11 A concise introduction to sociophonetics this book links research in sociolinguistics phonetics speech sciences and psycholinguistics *The Dynamics of Language* Rajend Mesthrie, David Bradley, 2018-06-26 Linguistics the close study of language and languages is an indispensable foundation for all forms of knowledge The African continent is blessed with hundreds of languages which act as local repositories of culture and interaction South Africa alone has eleven official languages plus Sign Language many heritage languages and new languages of global movements and migration Part of the linguist s business is to document record and affirm languages and diversity Applied linguists use their training to understand and enhance the role of language in education and upliftment and the opportunities and challenges of new technologies of communication The International Congress of Linguists meets every five years to reflect the development of the field and 2018 is the first time that the

congress is being held in Africa This book is a collection of the plenary and focus papers presented at the conference and thus represents current thinking in the major branches of language study as represented by leading local and international scholars The papers discuss the history of languages their structure acquisition diversity and use At the same time due regard is paid to the African continent in connection with its linguistic diversity multilingualism and educational and societal concerns The Congress is meant to affirm the value of the languages of Africa of languages and Linguistics in general as well as to inspire and equip younger scholars to undertake advanced research into language in its many facets The Routledge Handbook of Variationist Approaches to Spanish Manuel Díaz-Campos, 2021-10-12 The Routledge Handbook of Variationist Approaches to Spanish provides an up to date overview of the latest research examining sociolinguistic approaches to analyzing variation in Spanish Divided into three sections the book includes the most current research conducted in Spanish variationist sociolinguistics This comprehensive volume covers phonological morphosyntactic social and lexical variation in Spanish Each section is further divided into subsections focusing on specific areas of language variation highlighting the most salient and current developments in each subfield of Hispanic sociolinguistics As such this Handbook delves further into the details of topics relating to variation and change in Spanish than previous publications with a focus on the symbolic sociolinguistic value of specific phenomena in the field Encouraging readers to think critically about language variation this book will be of interest to advanced undergraduate and graduate students as well as researchers seeking to explore lesser known areas of Hispanic sociolinguistics The Routledge Handbook of Variationist Approaches to Spanish will be a welcome addition to specialists and students in the fields of linguistics Hispanic linguistics sociolinguistics and linguistic anthropology

The Handbook of Linguistics Mark Aronoff, Janie Rees-Miller, 2017-03-08 The first edition of this Handbook is built on surveys by well known figures from around the world and around the intellectual world reflecting several different theoretical predilections balancing coverage of enduring questions and important recent work Those strengths are now enhanced by adding new chapters and thoroughly revising almost all other chapters partly to reflect ways in which the field has changed in the intervening twenty years in some places radically The result is a magnificent volume that can be used for many purposes David W Lightfoot Georgetown University The Handbook of Linguistics Second Edition is a stupendous achievement Aronoff and Rees Miller have provided overviews of 29 subfields of linguistics each written by one of the leading researchers in that subfield and each impressively crafted in both style and content I know of no finer resource for anyone who would wish to be better informed on recent developments in linguistics Frederick J Newmeyer University of Washington University of British Columbia and Simon Fraser University Linguists their students colleagues family and friends anyone interested in the latest findings from a wide array of linguistic subfields will welcome this second updated and expanded edition of The Handbook of Linguistics Leading scholars provide highly accessible yet substantive introductions to their fields it s an even more valuable resource than its predecessor Sally McConnell Ginet Cornell University No handbook or text offers

a more comprehensive contemporary overview of the field of linguistics in the twenty first century New and thoroughly updated chapters by prominent scholars on each topic and subfield make this a unique landmark publication Walt Wolfram North Carolina State University This second edition of The Handbook of Linguistics provides an updated and timely overview of the field of linguistics The editor s broad definition of the field ensures that the book may be read by those seeking a comprehensive introduction to the subject but with little or no prior knowledge of the area Building on the popular first edition The Handbook of Linguistics Second Edition features new and revised content reflecting advances within the discipline New chapters expand the already broad coverage of the Handbook to address and take account of key changes within the field in the intervening years It explores psycholinguistics linguistic anthropology and ethnolinguistics sociolinguistic theory language variation and second language pedagogy With contributions from a global team of leading linguists this comprehensive and accessible volume is the ideal resource for those engaged in study and work within the dynamic field of linguistics The Oxford Handbook of Sociolinguistics Robert Bayley, Richard Cameron, Ceil Lucas, 2015 This major new survey of sociolinguistics identifies gaps in our existing knowledge base and provides directions for future research
