may be time to take charge of your child's education by doing it yourself. The Well Trained Mind will instruct you step by step on how to give your child an academically rigorous comprehensive education from preschool through high school, one that will train him or her to read, to think, to understand, to be well rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school grammar stage when the building blocks of information are absorbed through memorization and rules; the middle school logic stage in which the student begins to think more analytically; and the high school rhetoric stage where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child, whether full time or as a supplement to classroom education, in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well Trained Mind* to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. *The Well Trained Mind* will give you the tools you'll need to teach your child with confidence and success.

[de Romanis Book 1 \(2nd edition\)](#) Katharine Radice, Sonya Kirk, Angela Cheetham, George Lord, 2025-03-20. Now endorsed by OCR and Eduqas, this popular Latin course for students aged 11-16 is breathing new life into Latin teaching and learning. *de Romanis* is a vibrant and accessible introduction to both the Latin language and the cultural world of the Romans. Throughout the course, students gradually build their proficiency in Latin while exploring cultural topics through background notes, primary sources, and engaging stories. This new edition of Book 1 has been revised throughout based on teacher feedback. Chapter introductions and core language sections are more accessible; you will find new boxes to offer opportunities for quick practice and enhance literacy through derivation skills; new primary sources expand your experience of the material world; revised stories support understanding of the darker side of Roman history. What makes *de Romanis* so special? Language learning is split between Core and Additional to ensure effective differentiation and flexible timetabling. Fun and varied exercises include word identification, word manipulation, and source analysis to encourage wider discussion. Two-way translation exercises, derivation tasks, and grammar explanations develop key literacy skills, promoting the understanding of English as well as Latin. Vocabulary is consistently consolidated, and the clear and systematic explanations of grammar encourage steady progress to GCSE and beyond. Early introduction of Latin stories, rather than isolated sentences, builds student confidence from the start. The course is supported by over 300
