Aerial Life Spaces Mobilities Affects:

Aerial Life Peter Adey, 2010-09-29 NOMINATED AND SHORT LISTED FOR THE SURVEILLANCE STUDIES BOOK PRIZE 2011 This theoretically informed research explores what the development and transformation of air travel has meant for societies and individuals Brings together a number of interdisciplinary approaches towards the aeroplane and its relation to society Presents an original theory that our societies are aerial societies or aerealities and shows how we are both enabled and threatened by aerial mobility Features a series of detailed international case studies which map the history of aviation over the past century from the promises of early flight to World War II bombing campaigns and to the rise of international terrorism today Demonstrates the transformational capacity of air transport to shape societies bodies and individual identities Offers startling historical evidence and bold new ideas about how the social and material spaces of the aeroplane are considered in the modern era

Mobility, Space, and Culture Peter Merriman, 2012 Over the past ten to fifteen years there has emerged an increasing concern with mobility in the social sciences and humanities In *Mobility Space and Culture* Peter Merriman provides an important and timely contribution to the mobilities turn in the social sciences encouraging academics to rethink the relationship between movement embodied practices space and place The book takes an interdisciplinary approach drawing upon theoretical and empirical work from across the social sciences and humanities to provide a critical evaluation of the relationship between mobility and place site reformulating places as in process open and dynamic spatial formations Merriman draws upon post structuralist writings on space practice and society to demonstrate how movement is not simply practised or experienced in relation to space and time but gives rise to rhythms forces atmospheres affects and materialities which are often more crucial to embodied apprehensions of events than sensibilities of spatiality and temporality He draws upon detailed empirical research on experiences of and social reactions to driving in late Victorian and Edwardian Britain to trace how the motor car became associated with sensations of movement space and enmeshed with debates about embodiment health visibility gender and politics The book will be essential reading for undergraduates and postgraduates studying mobility in sociology geography cultural studies politics transport studies and history

Traces of a Mobile Field James R Faulconbridge, Allison Hui, 2017-10-02 This agenda setting collection critically reflects upon a decade of contributions to the social scientific mobilities turn in order to propose new trajectories for the future of this interdisciplinary research field The chapters are all exemplars of how the past decade of research has opened up new insights into the place of mobilities in societies They also highlight how attempts to look forward towards new conversations understandings and interventions in a mobile world will emerge from the transformations invoked by this field of research Authors foreground issues of power interdisciplinarity transformative technologies fragmented discourses and changing social processes whilst addressing automobility aeromobility tourism communications technologies urban infrastructures migration and emergencies As a whole the collection raises important questions about not only how

understandings of mobilities are changing but also how the field of mobilities research is itself on the move The evocative empirical cases and provocative arguments in this book thus highlight the necessity of new concepts conversations methods empirical studies and interventions to address transformations in both the complex mobilities of social worlds and what is examined or taken for granted in mobilities research itself This book was originally published as a special issue of *Mobilities*

Sound, Space and Society Kimberley Peters, 2017-11-30 In 1964 rebel radio stations took to the seas in converted ships to offer listening choice to a young resistant audience against a backdrop of restrictive broadcasting policies This book draws on this exceptional moment in social history and the decades that followed teasing out the relations between sound society and space that were central to pirate broadcasting activities With a turn towards mediated life in geography studies of radio have been largely absent However radio remains the most pervasive mass communications medium This book breaks new ground discussing in depth the relationship between radio space and society considering how space matters in the production consumption and regulation of audio transmission through the geophysical spaces of sea land and air It is relevant for readers interested in geographies of media sensory spatial experience everyday geopolitics and the turn towards elemental and more than human geographies

How Cities Learn Astrid Wood, 2022-04-04 *How Cities Learn* traces the circulation of bus rapid transit BRT to understand how and why it was widely adopted in South Africa Investigates the global proliferation and localization of BRT Examines the production and distribution of transportation knowledge in the global south Addresses the spatial and social legacy of apartheid in South African cities Reveals a new way of understanding the intersections between policy people and place Essential reading for scholars of geography politics sociology and transportation as well as urban planners and practitioners

Stillness in a Mobile World David Bissell, Gillian Fuller, 2013-01-11 This edited collection of essays on the conceptual political and philosophical importance of stillness is positioned within a world that has increasingly come to be understood through the theoretical and conceptual lens of movement With contributions from leading scholars in the field the diversity of this collection illuminates the multiplicity of ontological and epistemological registers through which stillness moves from human geography to media studies cultural theory to fine arts With the help of luminaries such as Deleuze Bergson Barthes and Beckett this book interweaves cutting edge theoretical insight with empirical illustrations which examine and traverse a multitude of practices spaces and events In an era where stasis slowness and passivity are often held to be detrimental this collection puts forward a new set of political and ethical concerns which help us to come to terms with understand and account for im mobile life *Stillness in a Mobile World* in an essential source of reference for both undergraduate and post graduate students working within disciplines such as cultural studies sociology mobility studies and human geography

Geographies of Mobility Mei-Po Kwan, Tim Schwanen, 2018-10-11 This book seeks to bring together different philosophical theoretical and methodological approaches to the study of human mobility within the discipline of geography With five thematic sections conceptualizing and analyzing

mobility inequalities of mobility politics of mobility decentering mobility and qualifying abstraction and 27 substantive chapters by leading researchers in the field it provides a comprehensive overview of the latest thinking about human mobility and related issues The contributors discuss mobility issues as diverse as everyday mobilities of young people migrants and refugees and sex workers the relationships between citizenship and mobility and the potential and pitfalls of big data for understanding mobility This coupled with a broad international focus means that Geographies of Mobility will not only encourage and enrich dialogue on a theme that is of major importance to varied geographic research communities but will also be of great interest to students and researchers across the wider social sciences This book was originally published as a special issue of Annals of the American Association of Geographers
