Benjamin Banneker Pioneering Scientist:

Benjamin Banneker Ginger Wadsworth,2003-08-01 True or False Benjamin Banneker used a telescope and mathematics to predict a solar eclipse True In 1789 Banneker calculated when the moon would pass between the earth and sun And he did it without any formal math or science training As a young boy he worked on the farm owned by his father who was a freed slave in Maryland He helped to survey and plot out the site for the U S capital city Washington D C He also published several almanacs that helped farmers merchants and sailors predict the weather and know the dates of holidays and festivals

Benjamin Banneker Ginger Wadsworth,2003-03 For use in schools and libraries only In a time when most African Americans were slaves Banneker lived a life of freedom and became known as America s first African American man of science Through his accomplishments he helped advance the cause of equality for African Americans **Benjamin Banneker** Ginger Wadsworth,2018-01-01 Gazing up at the stars Benjamin Banneker longed to understand how and why things worked as they did In a time when most black Americans were slaves Banneker lived a life of freedom and became known as America s first black American man of science He helped survey Washington D C and became the first black American to write an almanac Through his accomplishments he helped advance the cause of equality for African Americans

Benjamin Banneker and Us Rachel Jamison Webster,2023-03-21 Named a Best Book of the Year by The New Yorker A New York Times Editors Choice Webster s excellent and thought provoking book is on every level about unknowing rather than knowing about pondering the mysteries of Banneker who is often described as one of the first African American scientists and the legacy of 11 generations of a multiracial American family that only now is coming into view Jess Row The New York Times A family reunion gives way to an unforgettable genealogical quest as relatives reconnect across lines of color culture and time putting the past into urgent conversation with the present In 1791 Thomas Jefferson hired a Black man to help survey Washington DC That man was Benjamin Banneker an African American mathematician a writer of almanacs and one of the greatest astronomers of his generation Banneker then wrote what would become a famous letter to Jefferson imploring the new president to examine his hypocrisy as someone who claimed to love liberty yet was an enslaver More than two centuries later Rachel Jamison Webster an ostensibly white woman learns that this groundbreaking Black forefather is also her distant relative Acting as a storyteller Webster draws on oral history and conversations with her DNA cousins to imagine the lives of their shared ancestors across eleven generations among them Banneker s grandparents an interracial couple who broke the law to marry when America was still a conglomerate of colonies under British rule These stories shed light on the legal construction of race and display the brilliance and resistance of early African Americans in the face of increasingly unjust laws some of which are still in effect in the present day Benjamin Banneker Allison Lassieur,2006 An introduction to the life of Benjamin Banneker the African American astronomer and mathematician who helped survey Washington D C and who wrote several successful almanacs Title page verso **Best STEM Resources for**
