Bergson Great Thinkers On Modern Life Great Thinkers On Modern Life:

Bergson Michael Foley, 2015-02-15 Henri Bergson was a French professor and philosopher Born in Paris in 1859 to a Polish composer and Yorkshire woman of Irish descent his revelatory ideas of life as ceaseless transformation and the importance of attention learning humor and joy brought him incredible fame and media celebrity Here you will find insights from his greatest works The Life Lessons series from The School of Life takes a great thinker and highlights those ideas most relevant to ordinary everyday dilemmas These books emphasize ways in which wise voices from the past have urgently important and inspiring things to tell us *Insights and Oversights of Great Thinkers* Charles Hartshorne, 1983-06-30 One learns a great deal about a major philosopher by coming to appreciate his perspective on the history of philosophy Here Charles Hartshorne gives us just such a perspective on the history of philosophy and thereby on himself This is a reexamination of the history of philosophy looking at neglected aspects of the philosophers thought interpreting their views in a sharply focused controversial manner in order to show the origins and development within the Western tradition of the metaphysical and moral views represented by process philosophy The result is a fresh look at the tradition This is a clearly written readable original and constructive interpretation of the history of philosophy in the West from the sixth century before Christ to the present As the best known living representative of process philosophy Hartshorne shows that it has anticipations in Plato Aristotle Leibniz Hegel Schelling and many others even including the materialist Epicurus and the atheist Nietzsche Process philosophy and theology have significant overlap with the views of most of the creative constructive philosophers and theologians of recent times including Peirce William James Bergson Heidegger Paul Weiss Berdyaev John Findlay Paul Tillich Sartre Merleau Ponty and others This philosophy takes creative freedom transcending causal determinism and a generalized idea of sympathy feeling of feeling love as universal principles of life and nature

Romanticism, Hermeneutics and the Crisis of the Human Sciences Scott Masson, 2017-11-28 The human sciences established and developed in the nineteenth century have slowly disintegrated It is an ironic end It was in the name of the greater legitimacy of more universal psychological criteria that its architects disavowed the traditional theological standard for valuing and evaluating human words and deeds With hindsight we can see that universality was indeed gained but only at the cost of alienating any sense of common legitimacy Harold Bloom defending the canon largely in the humanising moral sense convention of critics operating since Matthew Arnold has resolutely maintained the common legitimacy of aesthetic value against the claims of particular interest groups But the very universality attached to aesthetic value is at odds with the world of common sense and thus lies at the root of the problem To complicate matters this universality has been understood as a traditional criterion A more radical treatment of the subject is needed This study begins by surveying the field of modern hermeneutics Noting its repeated crises of self legitimisation it traces these to circular beliefs bequeathed by Romanticism that human nature is self begetting and can thus be known intimately and autonomously After providing a historical overview

of how human nature had been understood the focus shifts to the attack in Coleridge's *Biographia Literaria* on Wordsworth's 1802 Preface to *Lyrical Ballads* and to a reading of some key Romantic texts It reads Coleridge's famous definition of the imagination as an attack on Romantic hermeneutics rooted in the traditional view that man has been created in *Imago Dei*

Routledge Library Editions: Romanticism Various, 2021-08-05 This set reissues 28 books on Romanticism originally published between 1940 and 2006 Routledge Library Editions Romanticism provides an outstanding collection of scholarship which explores not only Romantic literature but the Romantic Movement as a whole including art philosophy and science

for an immigrant community desperate to understand the changes taking place around it Today Coralnik's essays can be enjoyed not just for their perspective on two crucial decades of Jewish history but for their timeless wisdom about culture spirituality philosophy and history In Volume Two of Across the Great Divide Coralnik illuminates the strange sad life of the Yiddish language the inner conflicts of writers from Montaigne to Thomas Mann the way secular revolutionaries like Karl Marx channeled prophetic ideals and the moral ideas animating American presidents like Abraham Lincoln and Woodrow Wilson About the Translator Beatrice Coralnik Papo the eldest daughter of Abraham Coralnik was born in Berlin in 1913 Educated in Germany Russia and France she came to the U S in her early 20s A social worker by profession Mrs Papo is a lifelong student of literature and has spent the last two decades translating her father's essays She lives in San Jose California

Humor and the Good Life in Modern Philosophy Lydia B. Amir, 2014-02-01 An exploration of philosophical and religious ideas about humor in modern philosophy and their secular implications By exploring the works of both Anthony Ashley Cooper Third Earl of Shaftesbury and S ren Kierkegaard Lydia B Amir finds a rich tapestry of ideas about the comic the tragic humor and related concepts such as irony ridicule and wit Amir focuses chiefly on these two thinkers but she also includes Johann Georg Hamann an influence of Kierkegaard's who was himself influenced by Shaftesbury All three thinkers were devout Christians but were intensely critical of the organized Christianity of their milieux and humor played an important role in their responses The author examines the epistemological ethical and religious roles of humor in their philosophies and proposes a secular philosophy of humor in which humor helps attain the philosophic ideals of self knowledge truth rationality virtue and wisdom as well as the more ambitious goals of liberation joy and wisdom

The Tragedy of European Civilization Harry Redner, 2017-09-08 The tragedy of European civilization is a protracted historical event spanning the twentieth century and in many ways is ongoing During this time some of the greatest modern thinkers were active producing works that both reflected what was happening in history and contributed towards shaping it This work is a critique of their ideas Harry Redner establishes where and how they went wrong in some cases with apocalyptic consequences for Europe and the world The great intellectuals of the age at once philosophers sociologists political theorists historians and much else besides include Marx Weber Freud Elias Spengler Wittgenstein Heidegger Arendt Nietzsche and Foucault All of them had a historical impact even if only in molding academic disciplines and shaping of public opinion as was the case with the philosophers Wittgenstein and Arendt This book explores the close links between anti-Semitism and cultural pessimism and the relation between psychology and sociology Other themes range from the history and theory of the state to the misconception of language and power Suitable for students of sociology philosophy political theory history and cultural studies this brilliant exploration of our civilization and its tragedies will also be of interest to intellectual general readers
