The Bernard and Mary Berenson Collection of European Paintings at I Tatti Villa I Tatti (Florence, Italy), 2015
Edited by Carl Brandon Strehlke and Machtelt Br ggen Isra ls The Bernard and Mary Berenson Collection of European Paintings at I Tatti surveys the 149 works assembled by the Berensons for their home in Florence from the late 1890s through the first decades of the twentieth century at the time that they were making their mark on the world as connoisseurs The catalogue presents a privileged window on the Berensons intellectual interests through the objects they owned The entries written by an international team of art historians take full advantage of the extensive correspondence from the Berensons friends family and colleagues at I Tatti as well as the couple s diaries and notations on the backs of their vast gathering of photographs All the entries are lavishly illustrated with full scholarly and technical accountings of the objects There are also 17 illustrated reconstructions of the original contexts of panel paintings The catalogue includes essays on the progress of the Berensons collecting their love for Siena the Sienese forger Icilio Federico Joni the critic Roger Fry and Ren Piot s murals at I Tatti as well as a listing of 94 pictures that were once at I Tatti including donations made to museums in Europe and America Contents Preface Lino Pertile Acknowledgments Carl Brandon Strehlke and Machtelt Isra ls Note to the Use of the Catalogue Abbreviations Glossary of People in the Berenson Circle Mentioned in the Text Section I Introductory Essays and Entries 0 to 111 Essay I Bernard and Mary Collect Pictures Come to I Tatti Carl Brandon Strehlke Essay II The Berensons and Siena working title Machtelt Isra ls Essay III Passions Intertwined Art and Photography at I Tatti Giovanni Pagliarulo Entries Paintings from the 14th to 18th century Plates 0 to 111 Section II Fakes Essay IV The Berensons and the Sienese Forger Federico Ioni Gianni Mazzoni Entries Fakes Plates 112 to 116 Section III Roger Fry Essay V Roger Fry and Bernard Berenson Caroline Elam Entry Fry Plate 117 Section IV Ren Piot Essay VI A Failure Ren Piot and the Berensons Claudio Pizzorusso Entries Piot Plates 118 to 131 Section V The Berensons Family and Friends Entries Portraits Plates 132 to 138 Entries Miscellanea Plates 139 to 148 Appendix Paintings Formerly Owned by the Berensons Carl Brandon Strehlke and Machtelt Isra ls Bibliography Photo Credits Index Reliquary Tabernacles in Fourteenth-century Italy Beth Williamson, 2020 Ground breaking study of the enigmatic and unique tabernacles from fourteenth century Italy which for the first time combined relics and images Images and relics were central tools in the process of devotional practice in medieval Europe The reliquary tabernacles that emerged in the 1340s in the area of Central Italy surrounding the city of Siena combined images and relics presented visibly together within painted and decorated wooden frames In these tabernacles the various media and materials worked together to create a powerful and captivating ensemble usable in several contexts both in procession and static as the centre of focussed prayerful attention This book looks at Siena and Central Italy as environments of artistic invention and at Sienese painters in particular as experts in experimentation whose ingenuity encouraged the development of this new form of devotional technology It is the first full length study to focus in depth on the

materiality of these tabernacles investigating the connotations and effects of the materials from which they were made It examines especially the effect of bringing relics and images together and considers how the impressions of variety and abundance created by the multiplication of materials give birth to meaning and encourage certain kinds of action or thought

How Divine Images Became Art Oleg Tarasov, 2024-02-09 How Divine Images Became Art tells the story of the parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century While these two developments are well known they are usually studied in isolation Tarasov's study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre war period Drawing on a profound familiarity with Russian sources some of which are little known to Western scholars and on equally expert knowledge of Western material and scholarship Oleg Tarasov presents a fresh perspective on early twentieth century Russian and Western art The author demonstrates that during the Belle poque the interest in medieval Russian icons and Italian

primitives lead to the recognition of both as distinctive art forms conveying a powerful spiritual message Formalist art theory and its influence on art collecting played a major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque

Women and the Travel Guidebook, 1870-c.1910 Jasmine Proteau, 2025-01-31 Although the printing giants of John Murray and Karl Baedeker dominated the nineteenth century travel guidebook market women were important producers and consumers of guides This book argues that in the late nineteenth century women were key cultural producers of travel guidebooks an important form of non fiction mass media during an upsurge and shift in European travel and tourism While a limited number of studies have identified a small number of female authored guidebooks this is the first to take a broad view of women s place within the guidebook market situating female authored texts within a large and competitive book market to understand the role of gender in guidebook publication Given Italy s historic religious cultural and artistic significance to the Anglophone world guides to Italy were perhaps the most numerous among all the guidebooks targeted at travellers from the United Kingdom and North America in the nineteenth century and therefore form a key focus of this study
