

BIOL 101: Introductory Biology

Final Exam Study Guide

Your exam will have both multiple choice and short answers. Make sure to practice answering both types of questions.

You will have 3 hours to complete between 60-70 multiple choice questions (about 75% of the exam's points) and one page of short answer questions (about 25% of the exam's points). Approximately 30% of the questions will come from the Unit 4, and the remainder of the exam will be from all other units.

No calculators allowed. Bring a pencil and scantron. You will turn in ALL documents at the end of the exam. A required practice exam (graded for effort) is available through Sakai. The questions are pooled and randomly selected to include the practice questions from earlier in the semester and new questions from the newer part of unit 4. You also have blank copies of each of our semester exams available under "exams".

Study Guide Instructions:

Note that ALL of these study guide questions were derived from the Learning Objectives given at the start of each class!

--This study guide is divided into 4 parts

--Answer each question in (hand) writing. Don't just "go over" the study guide and answer questions in your head. Practice writing out each, and every, answer as you would on an exam. Include diagrams wherever possible.

--An answer key to this study guide will not be provided. This serves merely as a tool for you to gauge your understanding of the material for this unit. **Please attempt to answer the questions below without looking at your notes.** Then, correct your own answers by going back to the resources in the previous step.

--Use the lesson objectives, outlines, your book, guided reading questions, the powerpoint slides, practice exam, and your work on Mastering Biology as your main study resources.

***IMPORTANT: A cautionary word about study guides:** You should complete your study guide ON YOUR OWN. If you do decide to form and share a Google doc related to this study guide share it with 4 people max. Fact check every answer in your shared study guide. *If you join a study guide without having first attempted these questions on your own, it's the same as not having studied at all.* Only once you have attempted the questions yourself, should you turn to a shared study guide or meet with a peer instructor.

Here are some general study tips:

- Make sure you are an expert in the vocabulary we use and make sure you can explain how terms relate to one another.
