White Privilege Paula S. Rothenberg, 2008 Studies of racism often focus on its devastating effects on the victims of prejudice But no discussion of race is complete without exploring the other side the ways in which some people or groups actually benefit deliberately or inadvertently from racial bias This is the subject of Paula Rothenberg s groundbreaking anthology *White Privilege* The new edition of *White Privilege* once again challenges readers to explore ideas for using the power and the concept of white privilege to help combat racism in their own lives and includes key essays and articles by Peggy McIntosh Richard Dyer bell hooks Robert Jensen Allan G Johnson and others Three additional essays add new levels of complexity to our understanding of the paradoxical nature of white privilege and the politics and economics that lie behind the social construction of whiteness making this edition an even better choice for educators Brief inexpensive and easily integrated with other texts this interdisciplinary collection of commonsense non rhetorical readings lets educators

incorporate discussions of whiteness and white privilege into a variety of disciplines including sociology English composition psychology social work women s studies political science and American studies

The Weaponized Camera in the Middle East Liat Berdugo, 2021-01-14 Drawing on unprecedented access to the video archives of B'Tselem, an Israeli NGO that distributes cameras to Palestinians living in the West Bank, East Jerusalem, and the Gaza Strip, Liat Berdugo lays out an argument for a visual studies approach to videographic evidence in Israel/Palestine. Using video stills as core material, it discusses the politics of videographic evidence in Israel/Palestine by demonstrating that the conflict is one that has produced an inequality of visual rights. The book highlights visual surveillance and counter-surveillance at the citizen level: how Palestinians originally filmed to shoot back at Israelis who were armed with shooting power via weapons as the occupying force. It also traces how Israeli private citizens began filming back at Palestinians with their own cameras, including personal cell phone cameras, thus creating a simultaneous, echoing counter-surveillance. Complicating the notion that visual evidence alone can secure justice, *The Weaponized Camera in the Middle East* asks how what is seen but also who is seeing affects how conflicts are visually recorded. Drawing on over 5,000 hours of footage, only a fraction of which is easily accessible to the public domain, this book offers a unique perspective on the strategies and battlegrounds of the Israel/Palestine conflict.
