Aboriginal Australians Aboriginal Australians:

The World of the First Australians Ronald Murray Berndt, Catherine Helen Berndt, 1988 Includes new foreword added references social organisation economic life relationship with land life cycle religious beliefs law and order art death politics current developments in Aboriginal studies affairs

Imagined Destinies Russell McGregor, 2015-09-08 White Australians once confidently if regretfully believed that the Aboriginal people were doomed to extinction Even in the 1950s Australian children were still being taught that the Australian Aboriginals were a dying race who would eventually disappear from the face of the earth In Imagined Destinies Russell McGregor explores the origins and the gradual demise of the doomed race theory which was unquestioned in nineteenth century European thinking and remained uncontested until the 1930s White perceptions of Australia's indigenous people and their future had been shaped by Enlightenment ideas about progress Darwin's new theories on the survival of the fittest and other European philosophical concepts Imagined Destinies provides a challenging analysis and history of an idea which has exerted a powerful influence over white Australian attitudes to and policies for Aboriginal people Indeed its long shadow may still be with us

Religion and Non-Religion among Australian Aboriginal Peoples James L. Cox, Adam Possamai, 2016-12-01 Offering a significant contribution to the emerging field of Non Religion Studies Religion and Non Religion among Australian Aboriginal Peoples draws on Australian 2011 Census statistics to ask whether the Indigenous Australian population like the wider Australian society is becoming increasingly secularised or whether there are other explanations for the surprisingly high percentage of Aboriginal people in Australia who state that they have no religion Contributors from a range of disciplines consider three central questions How do Aboriginal Australians understand or interpret what Westerners have called religion Do Aboriginal Australians distinguish being religious from being non religious How have modernity and Christianity affected Indigenous understandings of religion These questions re focus Western dominated concerns with the decline or revival of religion by incorporating how Indigenous Australians have responded to modernity how modernity has affected Indigenous peoples religious behaviours and perceptions and how variations of response can be found in rural and urban contexts

Australian Aboriginal Religion Ronald Murray Berndt, 1974-01-01 This work is a serious anthropological study of Australian Aboriginal religion It is designed to be read by adults and is primarily for use in universities and or similar institutions It is not therefore for use in schools Where Australian Aborigines are concerned and in areas where traditional Aboriginal religion is still significant this book should be used only after consultation with local male religious leaders This restriction is important It is imposed because the concept of what is secret or may not be revealed to the uninitiated in Aboriginal religious belief and action varies considerably throughout the Australian continent And because the varying views of Aborigines in this respect must on all occasions be observed January 30th 1973 Ronald M Berndt

Night Skies of Aboriginal Australia Dianne Johnson, 2014-02-19 Written by anthropologist Diane Johnson Night Skies of Aboriginal Australia has been in demand since

its publication in 1998 It is a record of the stars and planets which pass across night time **The Habitat of Australia's Aboriginal Languages** Gerhard Leitner,Ian G. Malcolm,2008-08-22 The languages of Aboriginal Australians have attracted a considerable amount of interest among scholars from such diverse fields as linguistics political studies archaeology or social history As a result there is a large number of studies on a variety of issues to do with Aboriginal Australian languages and the social contexts in which they are used There is however no integrative reader that is easily accessible to the non specialist in any of the areas concerned The collection edited by Leitner and Malcolm fills this gap Looking at Aborigines and Torres Strait Islanders and their changing habitats from pre colonial times to the present the book covers languages from a structural and functional linguistic perspective moves on to the issue of cultural maintenance and then turns to language policy planning and the educational and legal dimensions Among the many themes discussed are the social and linguistic history of language contact after 1788 including the Macassans the demographic base of indigenous languages traditional indigenous languages results of language contact such as the modification of traditional languages and the rise of contact languages pidgins creoles esp Kriol Torres Strait Creole and Aboriginal English the impact of the Aboriginal languages on mainstream Australian English maintenance shift revival and documentation of indigenous and contact languages language planning language in education language in the media language in the law courts The contributors are leading experts in their fields The book can serve as a reader for university courses but also as a state of the art work and resource for specialists like applied linguists or educational planners *Justice and Warfare in Aboriginal Australia* Christophe Darmangeat,2020-11-12 Meticulously examining ethnographic sources Christophe Darmangeat argues that warfare among Australian Aborigines was mostly an extension of their judicial systems He demonstrates how violent conflict occurred when circumstances prohibited regulated proceedings *Aboriginal Peoples and Birds in Australia* Philip A. Clarke,2023-04-03 Australia is home to many distinctive species of birds and Aboriginal peoples have developed close alliances with them over the millennia of their custodianship of this country *Aboriginal Peoples and Birds in Australia* Historical and Cultural Relationships provides a review of the broad physical historical and cultural relationships that Aboriginal people have had with the Australian avifauna This book aims to raise awareness of the alternative bodies of ornithological knowledge that reside outside of Western science It describes the role of birds as totemic ancestors and spirit beings and explores Aboriginal bird nomenclature foraging techniques and the use of avian materials to make food medicine and artefacts Through a historical perspective this book examines the gaps between knowledge systems of Indigenous peoples and Western science to encourage greater collaboration and acknowledgment in the future Cultural sensitivity Readers are warned that there may be words descriptions and terms used in this book that are culturally sensitive and which might not normally be used in certain public or community contexts While this information may not reflect current understanding it is provided by the author in a historical context This publication may also contain quotations terms and annotations that reflect the historical

attitude of the original author or that of the period in which the item was written and may be considered inappropriate today Aboriginal and Torres Strait Islander peoples are advised that this publication may contain the names and images of people who have passed away
